- E. *Public Improvements Being Funded with Fees, Amounts Expended this Fiscal Year, and Total Percentage of Cost of Improvement Funded with Fees*:

The parkland fee funds the acquisition of parkland throughout the City, and specifically, in geographical areas of the City of Fremont where parks are non-existent and/or are insufficient to serve community recreational needs, consistent with city policies and objectives focused on addressing citywide park equity (see March 2022 Parks and Recreation Master Plan). The areas with the highest need for parks are densely residential areas with little or no open space remaining.
