

**DEVELOPMENT IMPACT FEES
ANNUAL REPORT WITH FIVE-YEAR FINDINGS**

FISCAL YEAR ENDING JUNE 30, 2025

LEGAL REQUIREMENTS FOR DEVELOPMENT IMPACT FEE REPORTING

A. CALIFORNIA GOVERNMENT CODE SECTION 66006 (b)

California Government Code Section 66006 (b) defines the specific reporting requirements for local agencies that impose AB 1600 Development Impact Fees (DIFs) on new development. For each separate fund established, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

- A brief description of the type of fee in the account or fund.
- The amount of the fee.
- The beginning and ending balance of the account or fund.
- The amount of the fees collected, and interest earned.
- An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.
- An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.
- A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid and the rate of interest that the account or fund will receive on the loan.
- The amount of refunds made due to sufficient funds being collected to complete financing on incomplete public improvements, and the amount of reallocation of funds made due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

B. CALIFORNIA GOVERNMENT CODE SECTION 66001 (d)

For all funds established for the collection and expenditure of DIFs, California Government Code Section 66001 (d) has additional requirements. For the fifth fiscal year following the first deposit into the fund and every five years thereafter, the local agency shall make all of the following findings with respect to that portion of the fund remaining unexpended, whether committed or uncommitted:

- Identify the purpose to which the fee is to be put.
- Demonstrate a reasonable relationship between the fee and purpose for which it is charged.
- Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements.
- Designate the approximate dates on which the funding is expected to be deposited into the appropriate account or fund.

As of June 30, 2025, the City's Childcare Facility Impact Fee Fund, Storm Drain Impact Fee Fund, and Flood In-Lieu Impact Fee Fund showed revenues held past the fifth year of first deposit; therefore, the City is reporting the following findings relating to these DIF Funds:

1. Childcare Facility Development Impact Fee Fund

- The purpose of the impact fee analysis for childcare facilities was to quantify the impacts on the need for childcare associated with new development. The analysis addressed both development of workplace buildings such as office, retail and industrial spaces and new residential development. The report also contained an analysis of the costs of mitigating the new demands by the construction of childcare facilities.
- In FY 2023/24, a consultant was hired to perform analysis and provide staff with an updated Nexus Study. Once this study has been approved by City Council the excess revenue will be utilized for projects outlined in the new study.
- Childcare Fees will be used to fund the construction of space for additional childcare programming at Bryte Park. It is expected that the fees will be appropriated for this project in the FY 2026/27 budget.

2. Storm Drainage Impact Fee Fund

- The subject impact fees are for a geographic area identified as Southport/south basin. Southport further defines geographic sub-basins for revenues and expenditures. Three sub-basins have improvement needs which exceed current revenues. A fourth basin's improvement needs require further evaluation before disposition of basins revenues.
- A Citywide Storm Drainage / Storm Water Master Plan was completed in April 2022. The Master Plan recommends numerous improvements which will be prioritized and funded by Council in future budgets as available funding permits.

3. Flood In-Lieu Impact Fee Fund

- The purpose of the flood in lieu impact fees is to help fund the local share of a \$1.2 billion federally authorized flood control project that protects the City of West Sacramento. The city's cost share for the federal project includes improvements to the levees, the purchase of land for levee improvements and mitigation, relocations of existing structures, project design, engineering, construction management, and contingency costs. There are plans in the 2026 calendar year to spend the \$1.5 million in -excess revenue for a mitigation endowment project.

C. ADDITIONAL NOTES

The State of California Government Code Section 66002 states that local agencies that have developed a fee program may adopt a CIP indicating the approximate location, size, and timing of projects, plus an estimate for the cost of all facilities or improvements to be financed by fees. A formal CIP is recommended, at a minimum, as a five-year plan.

The City produces a five-year CIP which helps to maintain and support the City's General Plan as well as identify situations where infrastructure is needed to accommodate the planned development. The City's current adopted Capital Improvement Program (FY 2024/25 – FY 2028/29) may be found on the City's website (www.cityofwestsacramento.org) under Government, Finance Department, Publications.

D. FUNDING OF INFRASTRUCTURE

The FY 2024/25 – 2028/29 CIP list identifies all funding sources and amounts for individual projects through FY 2028/29. The CIP is updated annually to reflect the current infrastructure needs of the City. As a CIP project is identified, the project is evaluated to determine the portion of the project that will service existing residents and businesses versus new development. Once determination of use is made, the percentage of use attributable to new development may then be funded by the appropriate development impact fee based on the type of project. The percentage of use associated with existing residents or businesses are funded from other appropriate sources as identified on each individual project sheet in the CIP. Estimated construction start dates for projects are adjusted, as needed, to reflect the needs of the community.

DESCRIPTION OF DEVELOPMENT IMPACT FEES AND ESTABLISHING A REASONABLE RELATIONSHIP BETWEEN THE FEE AND THE PURPOSE FOR WHICH IT IS CHARGED

Traffic Development Impact Fee – Fees are supported by a study titled 2005 Traffic Impact Fee Study Update, prepared by DKS Associates.

Parks Development Impact Fee – Fees are supported by the Parks, Recreation and Open Space Master Plan prepared by PROS Consulting, dated April 17, 2019 (the "2019 Master Plan") and the 2021 Parks, Recreation and Open Space Master Plan Impact Fee Analysis (the "2021 Fee Analysis"), , which included a 10-year Capital Improvement Program (CIP) reflecting land acquisition and construction of park, trail and recreation facility improvements based on recent project costs and Department estimated facility costs. Costs associated with more recent planning efforts/development projects in the City have been incorporated, including: Washington Realized, The Bridge District, Yarbrough, Pioneer Bluff, Stone Lock, River Park, and Liberty. The total value of the 2019 Master Plan CIP is \$180 million. Of this amount, \$112 million in capital improvements are estimated to be funded with the Park Impact Fee. The balance is estimated to be funded through other sources of funding, including grant funding, public/private partnerships, sales tax measure funding and/or other appropriate impact fee funding.

Police Facility Development Impact Fee –Fees are supported by a study titled Analysis of Impact of Development on Fire, Police and Corporation Yard Facilities, prepared by

Citygate Associates dated June 1, 2005.

Fire Facility Development Impact Fee – Fees are supported by a study titled Analysis of Impact of Development on Fire, Police and Corporation Yard Facilities, prepared by Citygate Associates dated June 1, 2005.

Childcare Development Impact Fee – Fees in this fund may be used toward the acquisition of property and equipment for childcare facilities, construction or expansion of childcare facilities, facilities for before- and after-school care. Facilities for childcare may also include a preschool component.

City Hall Facilities Development Impact Fee – Fees are supported by a study titled Analysis of Impact of Development on Fire, Police and Corporation Yard Facilities, prepared by Citygate Associates dated June 1, 2005.

Storm Drain Development Impact Fee - Fees are supported by a study titled Southport Drainage Impact Fees, prepared by Borcalli and Associates dated July 2, 1996. Fees in this study were updated by a Borcalli and Associates report dated May 11, 2001, titled Southport Drainage Master Plan and again by a Wood Rogers technical analysis titled Southport Drainage Subbasin MC11, Analysis for Combining Drainage with Subbasin MC10, dated April 15, 2004.

Corporation Yard Development Impact Fee - Fees are supported by a study titled Analysis of Impact of Development on Fire, Police and Corporation Yard Facilities, prepared by Citygate Associates dated June 1, 2005.

Flood In-Lieu Development Impact Fee - Fees are supported by a study titled West Sacramento Flood Protection In-Lieu Fee Study, prepared by Economic Planning Systems dated April 11, 2007.

Sewer Development Impact Fee - Fees are supported by a study titled Wastewater System Master Plan 2015 Update, dated August 2017. The sewer connection fee represents the unit cost of capacity. The current number of sewer connections is converted to a standard connection referred to as an equivalent dwelling unit (EDU). An EDU relates multi-family, commercial and industrial connections to an equivalent single-family residential connection based on the ratio of the customer's estimated daily sewer flows compared to that of a single-family residence. The City's sewer connection fee only recovers the collection system costs.

Water Development Impact Fee - Fees are supported by a study titled Water System Master Plan 2015 Update, dated August 2017. The water connection fee represents the unit cost of capacity. The unit cost is determined by dividing the value of the facilities by the current number of connections serviced. The current number of water connections are converted to a standard connection referred to as an equivalent meter

unit (EMU).

All nexus fee studies may be found on the City's website at:

<https://www.cityofwestsacramento.org/government/departments/finance-department/impact-fee-nexus-studies>.

CURRENT FEE SCHEDULE

The current fee schedules for development impact fees may be found on the City's website at: <https://www.cityofwestsacramento.org/government/departments/finance-department/book-of-fees>.

Total Revenue Available	<u>\$ (2,134,480.99)</u>	<u>\$ (2,142,335.34)</u>	<u>\$ (2,580,549.58)</u>	<u>\$ (3,011,447.35)</u>	<u>\$ (3,600,024.20)</u>

Note 1: The Debt Service category is for principal and interest payments on interfund loans.

Note 2: The Cost Allocation Plan was updated in FY 2020/21 and now allocates a portion of Citywide overhead appropriately to Impact Fee funds.

Note 3: Bank Fees were allocated in FY 21/22 based on daily cash flow.

Note 4: There is an outstanding general fund loan to the fire impact fee fund for the construction of Fire Station 45, resulting in a negative fund balance.

Total Revenue Available	\$ (3,287,861.91)	\$ (3,216,288.47)	\$ (3,500,880.84)	\$ (3,886,146.87)	\$ (4,321,262.13)

Note 1: The Cost Allocation Plan was updated in FY 2020/21 and now allocates a portion of Citywide overhead appropriately to Impact Fee funds.

Note 2: Bank Fees were allocated in FY 21/22 based on daily cash flow.

Note 3: The purchase of the New Corp Yard has tax assessments due every year on the tax roll and because the Corp Yard was paid from Impact Fees, this fund is paying for the tax assessments.

Note 4: There is an outstanding general equipment fund loan to the corporation yard fund for construction of the new corporation yard, resulting in a negative fund balance.

Flood In-Lieu Development Impact Fee (Fund 229)

Statement of Revenues, Expenditures and Changes in Fund Balance Last Five Fiscal Years

	FY 2024/25	FY 2023/24	FY 2022/23	FY 2021/22	FY 2020/21

Note 1: The Cost Allocation Plan was updated in FY 2020/21 and now allocates a portion of Citywide overhead appropriately to Impact Fee funds.

Note 2: Bank Fees were allocated in FY 21/22 based on daily cash flow.

Note 3: Five year findings show there are excess revenue in the Flood In Lieu Impact Fee Fund. However, the purpose of the flood in lieu impact fees is to help fund the local share of a \$1.2 billion federally authorized flood control project that protects the City of West Sacramento. The local share of the project exceeds \$100 million. However, it is projected that the excessive funds will be spent in Fiscal Year 2026/2027 to begin the project.

Sewer Development Impact Fee (Fund 502)

Statement of Revenues, Expenditures and Changes in Fund Balance Last Five Fiscal Years

Note 3: The expenditures exceed the impact fee revenue and interest earnings for all 5 fiscal years. Therefore, no revenue available.

DEVELOPMENT IMPACT FEE PROJECT IDENTIFICATION

The Development Impact Fee Project Identification will be provided with a table, on page 27 that will illustrate the following reporting requirements defined by California Government Code Section 66006 (b):

- An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.
- An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.

Development Impact Fee Project Identification
As of June 30, 2025

		Construction		Development Impact Fees		
Project Number	Project Description	Project Status	Estimated Construction Start Date	Estimated Project Costs ^[1]	Budget/ Funding to Date ^[1]	Estimated % of Project Funded with DIFs
Traffic Impact Fees (TIF)
