December 31, 2024

The Honorable Mayor, Members of the City Council and Citizens of Escalon
Escalon, California 95320

Dear Mayor, Members of the City Council and Citizens of Escalon

State law requires any local agency that imposes development impact fees to prepare an annual report providing specific information about those fees. Therefore, in accordance with the provisions of the California Government Code Section 66006 (b) and 66001 (d), I hereby submit the Development Impact Fee (DIF) Report for the City of Escalon, California for the fiscal year (FY) ended June 30, 2024.

DIFs are charged by local governmental agencies in connection with approval of development projects. The purpose of these fees is to defray all or a portion of the cost of public facilities related to the development project. The legal requirements for enactment of a DIF program are set forth in Government Code §§ 66000-66025 (the "Mitigation Fee Act"), the bulk of which was adopted as 1987's AB 1600 and thus commonly referred to as "AB 1600 requirements".

DIFs are collected at the time a building permit is issued for the purpose of mitigating the impacts caused by new development on the City's infrastructure. Fees are used to finance the acquisition, construction and improvement of public facilities needed because of this new development.

A separate fund has been established to account for the impact of new development on each of the major types of public facilities: Water, Roadway, Parks and Recreation, Wastewater, and Community Facilities.

State law requires the City prepare and make available to the public the DIF Report within 180 days after the last day of each fiscal year. The City Council must review the annual report at a regularly scheduled public meeting not less than fifteen days after the information is made available to the public. This report was filed with the City Clerk's office and available for public review on December 31, 2024.

Respectfully submitted for your review,

Celinda Bickner, Finance Director / HR Administrator
City of Escalon

LEGAL REQUIREMENTS

Government Code - GOV

TITLE 7. PLANNING AND LAND USE [65000 - 66499.58]

DIVISION 1. PLANNING AND ZONING [65000 - 66342]

CHAPTER 5. Fees for Development Projects [66000 - 66008]

66006.

(a) If a local agency requires the payment of a fee specified in subdivision (c) in connection with the approval of a development project, the local agency receiving the fee shall deposit it with the other fees for the improvement in a separate capital facilities account or fund in a manner to avoid any commingling of the fees with other revenues and funds of the local agency, except for temporary investments, and expend those fees solely for the purpose for which the fee was collected. Any interest income earned by moneys in the capital facilities account or fund shall also be deposited in that account or fund and shall be expended only for the purpose for which the fee was originally collected.

(b) (1) For each separate account or fund established pursuant to subdivision (a), the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

(A) A brief description of the type of fee in the account or fund.

(B) The amount of the fee.

(C) The beginning and ending balance of the account or fund.

(D) The amount of the fees collected, and the interest earned.

(E) An identification of each public improvement on which fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.

(F) (i) An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement, as identified in paragraph (2) of subdivision (a) of Section 66001, and the public improvement remains incomplete.

(ii) An identification of each public improvement identified in a previous report pursuant to clause (i) and whether construction began on the approximate date noted in the previous report.

(iii) For a project identified pursuant to clause (ii) for which construction did not commence by the approximate date provided in the previous report, the reason for the delay and a revised approximate date that the local agency will commence construction.

(G) A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund

loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan.

(H) The amount of refunds made pursuant to subdivision (e) of Section 66001, the number of persons or entities identified to receive those refunds, and any allocations pursuant to subdivision (f) of Section 66001.

(2) The local agency shall review the information made available to the public pursuant to paragraph (1) at the next regularly scheduled public meeting not less than 15 days after this information is made available to the public, as required by this subdivision. Notice of the time and place of the meeting, including the address where this information may be reviewed, shall be mailed, at least 15 days prior to the meeting, to any interested party who files a written request with the local agency for mailed notice of the meeting. Any written request for mailed notices shall be valid for one year from the date on which it is filed unless a renewal request is filed. Renewal requests for mailed notices shall be filed on or before April 1 of each year. The legislative body may establish a reasonable annual charge for sending notices based on the estimated cost of providing the service.

(c) For purposes of this section, “fee” means any fee imposed to provide for an improvement to be constructed to serve a development project, or which is a fee for public improvements within the meaning of subdivision (b) of Section 66000, and that is imposed by the local agency as a condition of approving the development project.

(d) Any person may request an audit of any local agency fee or charge that is subject to Section 66023, including fees or charges of school districts, in accordance with that section.

(e) (1) A local agency shall inform a person paying a fee subject to this section of both of the following:

(A) The person’s right to request an audit pursuant to Section 66023.

(B) The person’s right, pursuant to paragraph (1) of subdivision (b), to file a written request for mailed notice of the local agency’s meeting to review the information made public pursuant to paragraph (1) of subdivision (b).

(2) A local agency shall provide a person paying a fee subject to this section a link to the page on the local agency’s internet website where the information made public pursuant to paragraph (1) of subdivision (b) is available for review.

(f) The Legislature finds and declares that untimely or improper allocation of development fees hinders economic growth and is, therefore, a matter of statewide interest and concern. It is, therefore, the intent of the Legislature that this section shall supersede all conflicting local laws and shall apply in charter cities.

(g) At the time the local agency imposes a fee for public improvements on a specific development project, it shall identify the public improvement that the fee will be used to finance.

(Amended by Stats. 2023, Ch. 741, Sec. 1. (AB 516) Effective January 1, 2024.)

Impact Fee Uses

Development impact fees in California can be used for a variety of public infrastructure and services to accommodate growth and mitigate the impacts of new development. Here are some common allowable uses:

Transportation Infrastructure:

Roads, bridges, and public transit systems to improve traffic flow and connectivity.

Public Safety Facilities:

Police and fire stations, emergency response facilities, and related equipment.

Parks and Recreation:

Development and maintenance of parks, recreational facilities, and open spaces.

Educational Facilities:

Schools and educational infrastructure to support growing student populations.

Water and Sewer Systems:

Expansion and improvement of water supply and wastewater treatment facilities.

Public Buildings:

Libraries, community centers, and other public buildings that serve the community.

Affordable Housing:

Development of affordable housing units to meet community needs.

Healthcare Facilities:

Hospitals, clinics, and other healthcare infrastructure.

AREAS OF USE - FEE NEXUS / MEASUREMENT

- Streets and thoroughfare facilities -- traffic generation rates.
- Traffic control facilities -- traffic generation rates.
- Bridges -- traffic generation rates.
- Storm drainage facilities -- runoff coefficient/impervious area.
- Utility undergrounding -- number of meters/service connections.
- Street lighting -- traffic generation rates.
- Street trees and median landscaping -- traffic generation rates.
- Parks and recreation facilities -- population.
- Other Public facilities (city hall, civic center) -- acreage.
- Law enforcement facilities, equipment, and training -- responses.
- Fire protection facilities, equipment, and training -- incidents.
- Solid-waste collection equipment -- waste generation rates.
- Solid-waste disposal facilities -- waste generation rates.
- Low- and moderate-income housing -- local agency policy.
- Historical preservation and cultural facilities -- population.
- Harbors, ports, and airports -- modal transportation generated.
- Public art, museums, and cultural resources -- population.
- Mass transit facilities and equipment -- traffic generation rates.
- Day-care facilities -- square footage of commercial/industrial.
- Water treatment and distribution facilities -- usage.
- Wastewater collection and treatment facilities -- usage.
- Reclaimed water treatment and distribution facilities -- usage.
- Electric generation and distribution facilities -- usage.
