Beginning Fund Balance	223,797.66	189,929.75	161,353.70	90,929.32	66,806.00	10,511.46
Fees Collected	29,212.00	25,444.62	25,389.31	71,471.40	24,032.10	113,287.59
Interest Income	11,350.70	8,423.29	3,186.74	(1,047.02)	91.22	4,906.95
Expenses	-	-	-	-	-	-
Transfers	-	-	-	-	-	(61,900.00)
Ending Fund Balance	264,360.36	223,797.66	189,929.75	161,353.70	90,929.32	66,806.00
Resources	40,562.70	33,867.91	28,576.05	70,424.38	24,123.32	118,194.54
Uses						
Civic Center Solar Project	-	-	-	-	-	-
Civic Center ADA Improvements	-	-	-	-	-	(61,900.00)
Total Uses	-	-	-	-	-	(61,900.00)

Total Expenditures	61,900.00
Total Revenue Subject to 5-Year Limitation	118,194.54
Total Expenditures - Total Revenue Subject to 5-Year Limitation	GC 66001(d)(1) Findings Requirement (56,294.54)

The General Facilities, Vehicles and Equipment fee can be used for a variety of facility and fleet projects. Projects identified in the Master Facilities Plan include trash disposal site improvements, ADA (Americans with Disabilities Act) and building code compliance upgrades, Public Works facility expansion, gateway entry signs, development of a Civic Center use Master Plan, and construction of a joint office facility.

Required Findings Under GC 66001(d)(1)

1. Purpose: The unexpended funds are to be used for general facility improvements and the Public Works facility expansion.
2. Reasonable Relationship: The annual five-year capital improvement plan is updated as part of the annual budget process with appropriations for eligible projects limited to funding availability from the associated collected fees.
3. Funding Sources: The source of funding for these projects will be the General Facilities Fund. A total of \$78,000 is planned for the expansion of City Hall Offices (\$28,000) and an addition of a satellite public works facility on the west side of the City (\$50,000).
4. Funding Dates: Due to staffing constraints, the city was not able to implement projects over the past five years. These projects are anticipated to be completed in 2026.
