

Fund: 137 - DIF Community Center

Description of Fees

The Community Center Fee was established for the purpose of creating a fair and equitable method of securing some of the revenues necessary to fund the enhancements and/or facilities, vehicles or equipment to enable the city to serve new development with the community centers required. The reasonable relationship between the fee and its purpose is calculated based on the impact the new development will have on the community centers required. That impact is measured by the number of units or square footage depending on the development. Fund 137 is used to record revenues and expenditures of the Community Center Fee.

Schedule of Fees

See Exhibit 1
