

Because development impact fee revenue fluctuates and is difficult to forecast, there is no estimate for the date on which the project will be completed. At this time, no other sources of revenue are projected.

No refunds of fees are required, and none have been made during Fiscal Year 2023-2024.

(253) Traffic Signals Fund – This fund includes seven percent of the transportation development impact fees collected and is for the purpose of constructing traffic signals and signal improvements.

Impact fee revenue in this category consists of **\$19,474** in fees, \$10,901 in developer deposits and \$71,809 in investment income.

Disbursements consist of \$389 in administrative charges and \$267,702 for the construction of the University Street and Brockton Avenue traffic signal installation.

Findings:

Monies collected into the Traffic Signals Fund, including the existing excess cash, are based on a detailed breakdown of citywide transportation projects needed to mitigate the impacts of new development through the year 2035. These projects have been approved by the City Council for construction under this program, as a part of Resolution No. 7701 and the Development Impact Fee Study dated January 9, 2017. A complete listing of proposed facilities is contained within the City’s Development Impact Fee Justification Study, dated January 9, 2017.

Below is a partial listing from that study.
