Fund: 127 - DIF Fire

Description of Fees

The Fire Impact Fee was established for the purpose of creating a fair and equitable method of securing some of the revenues necessary to fund the public safety enhancements and/or facilities, vehicles or equipment to enable the fire department to serve new development. The reasonable relationship between the fee and its purpose is calculated based on the impact the new development will have on the fire department. That impact is measured by the number of units or square footage depending on the development. Fund 127 is used to record revenues and expenditures of the Fire Impact Fee.

Fund: 128 - DIF Freeway Overcrossings/Bridges

Description of Fees

The Freeway Overcrossings/Bridges Impact Fee was established for the purpose of creating a fair and equitable method of securing some of the revenues necessary to fund the construction of freeway overcrossings and bridges to serve new development. The reasonable relationship between the fee and its purpose is calculated based on the impact the new development will have on freeway overcrossings and bridges. That impact is measured by the number of units or square footage depending on the development. Fund 128 is used to record revenues and expenditures of the Freeway Overcrossings/Bridges Impact Fee.
