DEVELOPMENT IMPACT FEE AND SEWER CAPACITY CHARGE FEES

PROJECTS IDENTIFICATION	8
-------------------------------	---

November 24, 2025

To the Honorable Mayor, Members of the City Council, and Citizens of Stanton:

State law requires any local agency that imposes development impact fees to prepare an annual report providing specific information about those fees. Therefore, in accordance with the provisions of the California Government Code Section 66000 et seq., as amended by the Assembly Bill (AB) 518 and Senate Bill (SB) 1693, I hereby submit the Development Impact Fee (DIF) Report for the City of Stanton, California for the Fiscal Year (FY) ended June 30, 2025.

DIFs are charged by the local government agencies in connection with approval of development projects. The purpose of these fees is to defray all or a portion of the cost of public facilities related to the development project. The legal requirements for enactment of a DIF program are set forth in Government Code Sections 66000-66025 (the "Mitigation Fee Act"), the bulk of which was adopted as 1987's AB 1600 and, thus, commonly referred to as "AB 1600 requirements".

In Stanton, DIFs are collected on or before the issuance of building permit or date the certificate of occupancy is issued for the purpose of mitigating the impacts caused by new development on the City's infrastructure. Fees are used to finance the acquisition, construction and improvement of public facilities needed as a result of this new development. A separate fund has been established to account for the impact of new development on each of the following types of facilities: Streets (Fund 261), Traffic Signals (Fund 262), Community Centers (Fund 263), and Police Facilities (Fund 264). Although not included in the City's DIF program, this report also includes reporting for the City's Sewer Capacity Charge fees as well to comply with California Government Code section 66013. The activity for these fees is accounted for in the Sewer Capacity Charge Fund (Fund 503).

California Government Code sections 66006 (b) and 66013 require the City prepare and make available to the public the DIF and Sewer Capacity Charge Fees Report within 180 days after the last day of each fiscal year. The City Council must review the annual report at a regularly scheduled public meeting after the information is made available to the public. The report was made available to the public for review through public notification on November 24, 2025.

Respectfully submitted,

Sharon del Rosario

INTRODUCTION

LEGAL REQUIREMENTS FOR DEVELOPMENT IMPACT FEE REPORTING

A. California Government Code Section 66006 (b)

Government Code Section 66006 (b) defines the specific reporting requirements for local agencies that impose AB 1600 DIF on new development. Annually, for each separate fund established for the collection and expenditure of DIFs, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the information shown below for the most recent fiscal year.

- A brief description of the fee;
- The amount of the fee;
- The beginning and ending balance of the account or fund;
- The amount of the fees collected, and the interest earned;
- An identification of each public improvement on which fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees;
- An identification of an approximate date by which the construction of the public improvement will commence, if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement;
- A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan; and
- The amount of refunds made due to insufficient funds being collected to complete financing on incomplete public improvements, and the amount of reallocation of funds made due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

B. California Government Code Section 66001 (d)

For all funds established for the collection and expenditure of DIFs, Government Code Section 66001 (d) has additional requirements. For the fifth fiscal year following the first deposit into the fund and every five years thereafter, the local agency shall make all of the following findings with respect to that portion of the fund remaining unexpended, whether committed or uncommitted:

- Identify the purpose to which the fee is to be put;
- Demonstrate a reasonable relationship between the fee and purpose for which it is charged;

- Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements; and
- Designate the approximate dates on which the funding is expected to be deposited into the appropriate account or fund.

C. Additional Notes

The State of California Government Code Section 66002 states that local agencies that have developed a fee program may adopt a Capital Improvement Program (CIP) indicating the approximate location, size, and timing of projects, plus an estimate for the cost of all facilities or improvements to be financed by fees.

D. Establishing a Reasonable Relationship Between the Fee and the Purpose for Which It Is Charged

On April 12, 2011, the City Council adopted Ordinance No. 977, establishing a DIF program. The DIF fees became effective on June 12, 2011 and are applied to new or expanded commercial development, new residential development, and upon uses which intensify the use of existing commercial or residential structures. Adjustment to the fees is generally made annually in accordance with the Bureau of Labor Statistics Consumer Price Index for all Urban Consumers. The DIF's nexus study sets forth the relationship between contemplated future development, facilities needed to serve future development and the estimated costs for those improvements based on the current General Plan.

DESCRIPTION AND PURPOSE OF DEVELOPMENT IMPACT FEES

The City collects DIFs to offset and address the impacts of new development on facilities and infrastructure. Currently, there are four DIF categories: Streets, Traffic Signals, Community Centers, and Police Facilities. While each fee category has its own methodology for determining fees, two main principles apply throughout:

- 1) The City aims to maintain the existing level of service as the City continues to grow; and
- 2) New development should pay its fair share of the City's infrastructure needs.

Streets – To provide for the expansion of existing primary and secondary arterial streets as set forth in the nexus study. The purpose of the streets impact fee is to fund roadway improvements to serve new development. The street impact fees will be used to widen and restripe streets to provide additional lanes. The need for street improvements is based on the trip demand placed on the system by new development.

Traffic Signals – To provide for additional traffic signals as set forth in the nexus study. The Public Works Department identified a list of traffic signals at intersections on the primary circulation system with the changes in land use and the resulted changes in number of lanes and traffic flow that will be needed to serve development within the City. Thirteen traffic signals were identified that will require improvement in order to better handle the change in traffic flow in the City due to new development.

Community Centers – To provide for the expansion, design and construction of community centers as set forth in the nexus study. The purpose of the fee is to ensure that new development funds its fair share of community centers, based on facilities referenced in the 2011 DIF nexus study. At the time of the nexus study, the City had three community center facilities totaling 27,660 square feet that served a population of approximately 39,000 residents. The nexus study provides for an additional 709 square feet of additional community centers per each residential population increase of 1,000.

Police Facilities – To provide an adequate level of police services. The increased need for services necessitates the construction of an additional facility in order that efficient services may be provided. As of the 2011 DIF nexus study, the Stanton Police Station included an 8,000 square foot facility for 34 police officers, which is approximately 235 square feet per sworn police officer. As the City's population increases due to new development, an increase in police facilities space will be needed to provide administrative support space and other police facilities for a larger police staff. Demand for services and associated facilities are based on the City's residential population.

DESCRIPTION AND PURPOSE OF SEWER CAPACITY CHARGE

The Sewer Capacity Charge fee was approved by the City Council on March 25, 2025, with the adoption of Resolution No. 2025-07. Capacity charges are one-time charges that reflect the demands and costs on City facilities created by new connections for additional capacity. The objective of the capacity charge is to create a fiscal balance between existing customers and new customers. California Government Code section 66013 (d) defines the specific reporting requirements for local agencies that impose a fee for sewer capacity charges. The local agency shall make available to the public, within 180 days after the last day of the fiscal year, the following information for that fiscal year:

- A description of the charges deposited in the fund;
- The beginning and ending balance of the account or fund and the interest earned from investment of moneys in the fund;
- The amount of charges collected in that fiscal year.
- An identification of each public improvement on which charges were expended and the amount of the expenditure for each improvement, including the total percentage of the cost of the public improvement that was funded with those charges if more than one source of funding was used;
- An identification of each public improvement on which charges were expended that was completed during that fiscal year;
- Each public improvement that is anticipated to be undertaken in the following fiscal year; and
- A description of each interfund transfer or loan made from the capital facilities fund. The information provided, in the case of an interfund transfer, shall identify the public improvements on which the transferred moneys are, or will be expended. The information, in the case of an interfund loan, shall include the date on which the loan will be repaid, and the rate of interest that fund will receive on the loan.

FEE SCHEDULE

The table below lists Fees in effect as of June 30, 2025

Developer Impact Fees

Fee	Low Density	Median Density	High Density (1)
Street Fee	\$ 650	\$ 456	\$ 398
Traffic Signal Fee	\$ 145	\$ 102	\$ 89
Community Center Fee	\$ 295	\$ 295	\$ 295
Police Facilities Fee	\$ 267	\$ 267	\$ 267
Total DIF	\$ 1,357	\$ 1,120	\$ 1,049

Sewer Capacity Fee

The City's Sewer Capacity Charge fee is \$487 per Equivalent Residential Unit (ERU).

CITY OF STANTON
Financial Summary Report of
Developer Impact Fees/Sewer Capacity Charge Fees
Pursuant to Government Code Sections 66006 and 66013
as of June 30, 2025

	Developer Impact Fees				
	Streets Impact Fee (Fund 261)	Traffic Signals Impact Fee (Fund 262)	Community Centers Fee (Fund 263)	Police Facilities Fee (Fund 264)	Sewer Capacity Charge (Fund 503)*
Unexpended Impact Fees and Interest in Excess of Total Receipts for Last Five Years (A) Less (B)	\$ 22,868.62	\$ -	\$ 114,312.57	\$ 103,462.57	
Committed to Capital Projects - Fiscal Year 2024/25	\$ -	\$ -	\$ -	\$ -	
Amount in Excess of Allowed Deposit	\$ 22,868.62	\$ -	\$ 114,312.57	\$ 103,462.57	
	SEE NOTE 1	SEE NOTE 1	SEE NOTE 2	SEE NOTE 3	

Notes:

(1) - The five-year revenue test is met in accordance with Government Code Section 66001(d).

(2) - Community Centers Fees have not been committed to a future project as of June 30, 2025, because the City is still accumulating sufficient revenue to fund the cost of new facilities (or increase the square footage of existing facilities). Per the 2011 DIF nexus study, the estimated cost of a new Community Center facility was \$2.2 million.

(3) - Police Facilities Fees have not been committed to a future project as of June 30, 2025, because the City is still accumulating sufficient revenue to fund the cost of new facilities (or increase the square footage of existing facilities). Per the 2011 DIF nexus study, the estimated cost of a new facility was \$2 million.

* Sewer Connection Fees where previously included in this report when not required under AB 1600. Going forward this report will only include Sewer Capacity Charges.

NOTE TO THE DEVELOPMENT IMPACT FEE REPORT

The note addresses an item required by California Government Code Section 66006 (b).

Note 1 – Refund of Developer Fee

At this time, all fees being collected pursuant to the DIF program have been earmarked for current or future capital projects necessary to maintain the current levels of services within existing service areas to serve new development.

DEVELOPMENT IMPACT FEE AND SEWER CAPACITY CHARGE FEES PROJECT IDENTIFICATION

The DIF projects identification table illustrates the following reporting requirements defined by California Government Code Section 66006 (b):

- An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.
- An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.

The Sewer Capacity Charge Fee projects identification table illustrates the following reporting requirements defined by California Government Code Section 66013 (d):

- An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.
- An identification of each public improvement that is anticipated to be undertaken in the following fiscal year.
