Notes:

- (1) Water expenditures for 2008/09 reflect the transfer of bond proceeds associated with the new Surface Water Treatment Facility.
- (2) The Water Facility Fee Fund reports a negative fund balance as a result of bonds payable in the amount of \$15,935,500 associated with the Surface Water Treatment Facility.
- (3) The negative expenditures are a result of the closure(s) of CIP projects that were fully funded in previous fiscal years and closed under budget; therefore, resulting of a transfer from the CIP project, to the original funding source.
- (4) The Parks and Trails Facility Fee Fund reports a negative fund balance due to project timing issues which are expected to be corrected once development activity increases. Several CIP projects have been funded in advance on the basis of fees being collected in ensuing years. This type of fiscal management is mandatory to support the infrastructure needed to accommodate the planned development.
- (5) The Wastewater Facility Fee Fund reports a negative fund balance as a result of notes payable in the amount of \$15,769,912 associated with the Wastewater Treatment Plant Expansion.
