COUNTYWIDE GENERAL GOVERNMENT FACILITIES

Ordinance No. 4065 and Resolution No. 13-140 Adopted on 10/8/13

Fee Description

An impact fee assessed on a countywide basis for the purpose of funding construction of government facilities (structures & improvements) serving all County residents and purchase of vehicles and equipment required to meet the expanded service needs which resulted from development and building growth. Fees are paid prior to or at the time a building permit is issued.

Initial Deposit made: 12/12/13

5 Year Finding Reporting Required in FY Ending in x3 and x8

Fee Amount

\$ 580 per Single Family dwelling unit and \$460 for Multi-Family dwelling unit (Effective 12/7/13)

Non-residential fees vary and are based on land use and building square footage or acreage.

Accounting

JAIL FACILITIES

County Code 3-15

Fee Description

Impact fee to defray the costs of providing Sheriff's Jail facilities made necessary by an increase to or a change in the use of property. (To be used for jail construction only).

Initial Deposit made: 3/28/2005

5 Year Finding Reporting Required in FY ending in x0 and x5

Fee Amount

While this was designed to include both the incorporated and unincorporated areas in the County, the cities and towns do not participate in collecting the fees in their areas.

The fees in the unincorporated area are:

\$ 455.89 for Single Family residence, \$ 363.63 for Multi-Family residence and \$ 372.22 for a Mobile Home. (Effective 5/10)

Accounting

	BEGINNING BALANCE 7/01/2015		\$	107,096.41
(1)	FEES COLLECTED	\$	29,225.84

	5055 ACCT. 101001 FOR JAIL CONSTRUCTION		\$	860,000.00
	ENDING BALANCE 6/30/2016		\$	1,046,673.80

(1) **Unincorporated Areas**

(2) The cities of Chico, Paradise and Oroville agreed to charge development impact fees and pass the fees through to the County to help pay for the Jail Expansion. During FY 2015-2016, developers challenged the fee on a procedural issue. The County opted to refund the \$49,965.54 in fees and the interest earned thereon. The County and cities intend to implement new development impact fees in the future to help pay for the Jail Expansion.

(3) Previously Capital Projects Fund 0041 Acct. 10101022 The funds transferred to the Capital Projects Fund satisfied a portion of the matching requirement to obtain funding through the State Adult Local Criminal Justice Facilities Construction funding program for the construction of a jail facility. Interest earned on all of the funds

PUBLIC WORKS FIVE-YEAR FINDINGS

Fiscal Year 2015/2016

FUND 5210

Drainage Deposits

Government Code Section 66001(d) requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the County shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

1. Identify the purpose to which the fee is to be put.

The purpose is for improvement of drainage facilities, as needed throughout the County. This fee was first collected in 1977 prior to adoption of AB1600.

2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

As development occurs throughout the County the impervious areas are increasing and thus increasing runoff of these developed parcels. This increased runoff requires improvements to the drainage infrastructure to accommodate the additional runoff. Therefore, additional drainage improvements are needed as development happens.

3. Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements.

This impact fee is no longer being collected; therefore, no future funding is anticipated. Plans are to utilize the existing funds for use on drainage improvements along County Roads that have seen increased flows throughout the years. Once the funds have been exhausted the fund will be closed.

4. Designate the approximate dates on which the funding referred to in paragraph 3 is expected to be deposited into the account or fund.

Not applicable, as fees are no longer being collected and no future funding is expected.

PUBLIC WORKS FIVE-YEAR FINDINGS

Fiscal Year 2015/2016

FUND 5232

Chico Storm Drainage Area #770 – Butte Creek

Government Code Section 66001(d) requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the County shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

1. Identify the purpose to which the fee is to be put.

The purpose of the fee is to provide funding for the construction and expansion of the storm drain system to accommodate the needs of projected new growth in the Butte Creek Basin. It provides funding as indicated in the 2000 City of Chico Storm Drain Master Plan Integrated Document. The revenue generated from this fee will be used to fund facilities required to accommodate new growth, such as collectors and outfalls, and construct peak attenuation facilities as well as water quality facilities.

2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

The new residential, commercial, and industrial development projected to occur will generate significant additional storm water flows, which will need to be transmitted via pipelines of varying size and capacity to various creeks and channels. Storm water will also need to be treated for water quality and may need to be attenuated. The purpose of the Storm Drainage Fee is to provide funding for the expansion of the City's storm drain collection system needed to accommodate the projected new growth. The fee is based on the amount of increased runoff a development generates and to which creek or channel the storm water drains.

3. Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements.

The impact fee for this drainage basin is no longer collected, since the entire basin area is now within the City of Chico; therefore, no future funding is anticipated. Existing funds will be transferred to the City of Chico for drainage improvements within the drainage basin area.

4. Designate the approximate dates on which the funding referred to in paragraph 3 is expected to be deposited into the account or fund.

It is anticipated that in the next year the remaining fees in this fund will be transferred to the City of Chico and the fund account will be closed.

PUBLIC WORKS FIVE-YEAR FINDINGS

Fiscal Year 2015/2016

FUND 5234

Chico Storm Drainage Area #772 – Little Chico Creek

Government Code Section 66001(d) requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the County shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

1. Identify the purpose to which the fee is to be put.

The purpose of the fee is to provide funding for the construction and expansion of the storm drain system to accommodate the needs of projected new growth in the Little Chico Creek Basin. It provides funding as indicated in the 2000 City of Chico Storm Drain Master Plan Integrated Document. The revenue generated from this fee will be used to fund facilities required to accommodate new growth, such as collectors and outfalls, and construct peak attenuation facilities as well as water quality facilities.

2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

The new residential, commercial, and industrial development projected to occur will generate significant additional storm water flows, which will need to be transmitted via pipelines of varying size and capacity to various creeks and channels. Storm water will also need to be treated for water quality and may need to be attenuated. The purpose of the Storm Drainage Fee is to provide funding for the expansion of the City's storm drain collection system needed to accommodate the projected new growth. The fee is based on the amount of increased runoff a development generates and to which creek or channel the storm water drains.

3. Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements.

Because the majority of the basin is now in the City of Chico, very few fees are collected at less than \$1000 per year. Since the majority of this basin area is now within the City of Chico, all the remaining improvements outlined in the master plan will be constructed by the City. Existing and future funds will be transferred to the City of Chico for drainage improvements within the drainage basin area.

4. Designate the approximate dates on which the funding referred to in paragraph 3 is expected to be deposited into the account or fund.

It is anticipated that in the next year the fund balance in this fund will be transferred to the City of Chico and all future fees collected will be transferred to the City. Once the entire basin is in the City, the fund account will be closed.

PUBLIC WORKS FIVE-YEAR FINDINGS

Fiscal Year 2015/2016

FUND 5235

Chico Storm Drainage Area #773 – Big Chico Creek

Government Code Section 66001(d) requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the County shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

1. Identify the purpose to which the fee is to be put.

The purpose of the fee is to provide funding for the construction and expansion of the storm drain system to accommodate the needs of projected new growth in the Big Chico Creek Basin. It provides funding as indicated in the 2000 City of Chico Storm Drain Master Plan Integrated Document. The revenue generated from this fee will be used to fund facilities required to accommodate new growth, such as collectors and outfalls, and construct peak attenuation facilities as well as water quality facilities.

2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

The new residential, commercial, and industrial development projected to occur will generate significant additional storm water flows, which will need to be transmitted via pipelines of varying size and capacity to various creeks and channels. Storm water will also need to be treated for water quality and may need to be attenuated. The purpose of the Storm Drainage Fee is to provide funding for the expansion of the City's storm drain collection system needed to accommodate the projected new growth. The fee is based on the amount of increased runoff a development generates and to which creek or channel the storm water drains.

3. Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements.

This drainage basin is distributed half within City of Chico and half within the County along Centennial Avenue and West Sacramento Avenue. Because there is very little development in the County area, very minimal funding is anticipated to be collected at less than \$2,000/year. The majority of the designated improvements are located in the City; therefore, all the remaining improvements outlined in the master plan will be constructed by the City. Existing and future funds will be transferred to the City of Chico for drainage improvements within the drainage basin area.

4. Designate the approximate dates on which the funding referred to in paragraph 3 is expected to be deposited into the account or fund.

It is anticipated that in the next year the fund balance in this fund will be transferred to the City of Chico and all future fees collected will be transferred to the City. Once the entire basin is in the City, the fund account will be closed.

PUBLIC WORKS FIVE-YEAR FINDINGS

Fiscal Year 2015/2016

FUND 5236

Chico Storm Drainage Area #774 – Lindo Channel

Government Code Section 66001(d) requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the County shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

1. Identify the purpose to which the fee is to be put.

The purpose of the fee is to provide funding for the construction and expansion of the storm drain system to accommodate the needs of projected new growth in the Lindo Channel Basin. It provides funding as indicated in the 2000 City of Chico Storm Drain Master Plan Integrated Document. The revenue generated from this fee will be used to fund facilities required to accommodate new growth, such as collectors and outfalls, and construct peak attenuation facilities as well as water quality facilities.

2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

The new residential, commercial, and industrial development projected to occur will generate significant additional storm water flows, which will need to be transmitted via pipelines of varying size and capacity to various creeks and channels. Storm water will also need to be treated for water quality and may need to be attenuated. The purpose of the Storm Drainage Fee is to provide funding for the expansion of the City's storm drain collection system needed to accommodate the projected new growth. The fee is based on the amount of increased runoff a development generates and to which creek or channel the storm water drains.

3. Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements.

Because the majority of the basin is now in the City of Chico, very few fees are collected at less than \$1000 per year. Since the majority of this basin area is now within the City of Chico, all the remaining improvements outlined in the master plan will be constructed by the City. Existing and future funds will be transferred to the City of Chico for drainage improvements within the drainage basin area.

4. Designate the approximate dates on which the funding referred to in paragraph 3 is expected to be deposited into the account or fund.

It is anticipated that in the next year the fund balance in this fund will be transferred to the City of Chico and all future fees collected will be transferred to the City. Once the entire basin is in the City, the fund account closed.

PUBLIC WORKS FIVE-YEAR FINDINGS

Fiscal Year 2015/2016

FUND 5237

Chico Storm Drainage Area #775 – Sudad Ditch

Government Code Section 66001(d) requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the County shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

1. Identify the purpose to which the fee is to be put.

The purpose of the fee is to provide funding for the construction and expansion of the storm drain system to accommodate the needs of projected new growth in the Sudad Ditch Basin. It provides funding as indicated in the 2000 City of Chico Storm Drain Master Plan Integrated Document. The revenue generated from this fee will be used to fund facilities required to accommodate new growth, such as collectors and outfalls, and construct peak attenuation facilities as well as water quality facilities.

2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

The new residential, commercial, and industrial development projected to occur will generate significant additional storm water flows, which will need to be transmitted via pipelines of varying size and capacity to various creeks and channels. Storm water will also need to be treated for water quality and may need to be attenuated. The purpose of the Storm Drainage Fee is to provide funding for the expansion of the City's storm drain collection system needed to accommodate the projected new growth. The fee is based on the amount of increased runoff a development generates and to which creek or channel the storm water drains.

3. Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements.

This drainage basin is distributed half within City of Chico and half within the County along South of Eaton Rd and east of SR99. Because there is very little development in the County area, very minimal funding is anticipated to be collected at less than \$3,000/year. The majority of the designated improvements are located in the City; therefore, all the remaining improvements outlined in the master plan will be constructed by the City. Existing and future funds will be transferred to the City of Chico for drainage improvements within the drainage basin area.

4. Designate the approximate dates on which the funding referred to in paragraph 3 is expected to be deposited into the account or fund.

It is anticipated that in the next year the fund balance in this fund will be transferred to the City of Chico and all future fees collected will be transferred to the City. Once the entire basin is in the City, the fund account will be closed.

PUBLIC WORKS FIVE-YEAR FINDINGS

Fiscal Year 2015/2016

FUND 5238

Chico Storm Drainage Area #776 – Mud-Sycamore Creek

Government Code Section 66001(d) requires that for the fifth fiscal year following the first deposit into the account or fund, and every five years thereafter, the County shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted:

1. Identify the purpose to which the fee is to be put.

The purpose of the fee is to provide funding for the construction and expansion of the storm drain system to accommodate the needs of projected new growth in the Little Mud-Sycamore Creek Basin. It provides funding as indicated in the 2000 City of Chico Storm Drain Master Plan Integrated Document. The revenue generated from this fee will be used to fund facilities required to accommodate new growth, such as collectors and outfalls, and construct peak attenuation facilities as well as water quality facilities.

2. Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

The new residential, commercial, and industrial development projected to occur will generate significant additional storm water flows, which will need to be transmitted via pipelines of varying size and capacity to various creeks and channels. Storm water will also need to be treated for water quality and may need to be attenuated. The purpose of the Storm Drainage Fee is to provide funding for the expansion of the City's storm drain collection system needed to accommodate the projected new growth. The fee is based on the amount of increased runoff a development generates and to which creek or channel the storm water drains.

3. Identify all sources and amounts of funding anticipated to complete the financing of incomplete improvements.

Because the majority of the basin is now in the City of Chico, very few fees are collected at less than \$2000 per year. Since the majority of this basin area is now within the City of Chico, all the remaining improvements outlined in the master plan will be constructed by the City. Existing and future funds will be transferred to the City of Chico for drainage improvements within the drainage basin area.

4. Designate the approximate dates on which the funding referred to in paragraph 3 is expected to be deposited into the account or fund.

It is anticipated that in the next year the fund balance in this fund will be transferred to the City of Chico and all future fees collected will be transferred to the City. Once the entire basin is in the City, the fund account will be closed.
