DEVELOPMENT IMPACT FEE REPORT
FISCAL YEAR 2024-25**

INTRODUCTION

State law requires any local agency that imposes development impact fees (DIFs) to prepare an annual report providing specific information about those fees. The Consolidated Development Impact Fee Report (Report) for Fiscal Year 2024-25 has been prepared in compliance with the provisions of the California Government Code Section 66006(b) and 66001(d), as amended by Assembly Bill (AB) 518 and Senate Bill (SB) 1693. The Report includes both County and Special District DIF fund information.

DIFs are charged by local agencies in connection with the approval of development projects in their designated areas. In Butte County, DIFs are used to finance the acquisition, construction, and improvement of public facilities needed as a result of new development. The DIFs have been earmarked for current or future capital projects necessary to maintain the current levels of service within existing service areas to serve new development. A separate fund has been established for each DIF. Fund balance is reported on an accrual basis.

The legal requirements for enactment of a DIF program are set forth in Government Code sections 66000-66025 (the Mitigation Fee Act).

State law requires the County to prepare a DIF report and make it available to the public within 180 days after the last day of each fiscal year. The Board of Supervisors must review the DIF report at a regularly scheduled public meeting not less than fifteen days after the information is made available to the public. This Report has been available for public review in the Office of the Clerk of the Board since December 26, 2025.

LEGAL REQUIREMENTS

CALIFORNIA GOVERNMENT CODE SECTION 66006(b)

California Government Code section 66006(b) defines the specific reporting requirements for local agencies that impose DIFs on new development. For each separate fund established for the collection and expenditure of DIFs, the local agency shall within 180 days after the last day of each fiscal year make available to the public the following information for the fiscal year last ended:

Fund Accounting

- Brief description of the type of fee;
- Fee amount;
- Beginning and ending balances;
- Total fees collected and interest earned;
- Expenditures;
- Interfund transfers and/or loans;
- Refunds to developers due to cancelled projects or sufficient funds being collected to complete financing on incomplete public improvements; and
- Reallocated funds due to administrative costs to refund unexpended revenues exceeding the amount to be refunded.

Expenditures, Construction Dates, Interfund Transfers, and Interfund Loans

- Each public improvement on which fees were expended, the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with development impact fees.
- The approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.
- Each interfund transfer or loan made from the fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid and the rate of interest that the fund will receive on the loan.

The Development Impact Fee Projects and Expenditures table satisfies the following reporting requirements defined by California Government Code Section 66006(b)(1)(A)-(F):

- Identifies each public improvement on which fees were expended, the amount of expenditures on each improvement, and the total percentage of the cost of the public improvement that will be funded with impact fees.
- Identifies an approximate date by which the construction of the public improvement will commence, if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.

The Butte County Capital Improvement Program (CIP) for FY 2018-19 through FY 2027-28 is located on the County's website at:

<https://www.buttecounty.net/DocumentCenter/View/1554/Capital-Improvement-Projects-PDF>

The CIP is a spending plan for infrastructure improvements that have an identified funding source, including Development Impact Fees.
