

City of Beverly Hills
Annual Reporting pursuant to the Mitigation Fee Act
Fiscal Year Ended June 30, 2025

Water Supply Charge

For the annual reporting requirements of the Mitigation Fee Act under California Government Code Section 66013, the following information is presented:

(d) The local agency shall make available to the public, within 180 days after the last day of each fiscal year, the following information for that fiscal year:

(1) A description of the charges deposited in the fund.

The Water Supply Charge pays for the development of alternative water sources in order to reduce the City's reliance on imported water from the Metropolitan Water District (MWD), specifically a high-capacity groundwater well in the Central Basin. The fee also helps to fund the capture and development of non-potable sources of irrigation.

(2) The beginning and ending balance of the fund and the interest earned from investment of moneys in the fund and
(3) the amount of charges collected in that fiscal year.

FISCAL YEAR	BEGINNING FUND NET POSITION	FEES COLLECTED	INVESTMENT EARNINGS GAIN/(LOSS)	OTHER REVENUE	EXPENSES	ENDING FUND NET POSITION
FY 2024-25	\$ 4,780,875	688,510	262,309	4,876	-	\$ 5,736,570

(4) An identification of all of the following:

(A) Each public improvement on which charges were expended and the amount of the expenditure for each improvement, including the percentage of the total cost of the public improvement that was funded with those charges if more than one source of funding was used.

None.

(B) Each public improvement on which charges were expended that was completed during that fiscal year.

None.

(C) Each public improvement that is anticipated to be undertaken in the following fiscal year.

CIP 00916 – La Brea Basin Well Development – Water Supply Charges FY25 Budget – \$4,500,000 – This project is to design and drill new groundwater wells, construct the required water treatment processes, and design and construct conveyance systems for groundwater in the La Brea Basin. The development of groundwater in the La Brea Basin is one of the projects identified in the City's Water Enterprise Plan to increase the City's local groundwater supply.

(5) A description of each interfund transfer or loan made from the capital facilities fund. The information provided, in the case of an interfund transfer, shall identify the public improvements on which the transferred moneys are, or will be, expended. The information, in the case of an interfund loan, shall include the date on which the loan will be repaid, and the rate of interest that the fund will receive on the loan.

None.
