

Storm Drain Facility Fund (Fund 231)

The purpose of this fee is to ensure that storm drain facilities and demand can accommodate growth within the City. Most new development generates storm water runoff that must be controlled through storm drain facilities by increasing the amount of land that is impervious to precipitation. The new storm drain facilities were identified in the City's FY 2023-25 Biennial Budget, and by City staff.

The Current Amount of the DIF for Residential per square foot is \$0.03 and for Nonresidential per square foot Commercial and Office is \$0.01.

	FY 23-24 Actual
Revenues:	
Drainage Fees	\$ 74
Interest Income	-
Total Revenues	74
