Introduction

LEGAL REQUIREMENTS FOR DEVELOPMENT IMPACT FEES REPORTING

The City collects several fees that fall under the purview of the Mitigation Fee Act.

The Mitigation Fee Act (Government Code Section 66000 et. seq.) requires each local agency to make public a report on developer fees within 180 days after the close of each fiscal year. The City of Concord (City) completed its year-end audit and posted the required Assembly Bill (AB)1600 report to the City's website on Friday, December 26, 2025, which also incorporates the new inclusionary housing in-lieu fee reporting requirements of AB 2663 (2024, Grayson) (Government Code Section 65906.6). Section 66006(b)(2) requires each local agency to review the report at a regularly scheduled public meeting not less than 15 days after the information is made available to the public. The City collects several fees that fall under the purview of the Mitigation Fee Act.

AB 1600 (Statutes of 1998, Mitigation Fee Act), codified as Government Code Sections 66000 et seq. governs how public agencies collect, maintain, and spend impact fees imposed on developers for the purpose of defraying costs of public facilities. AB 1600 sets forth a number of requirements that local agencies must follow if they exact fees from developers to defray the cost of constructing public facilities related to development projects, and mandates reporting requirements for these fees. In 2024, Governor Newsom signed into law AB 2663 (Government Code Section 65906.6) which becomes effective January 1, 2026, requiring that jurisdictions that have inclusionary housing fees to report and publish the amount of fees collected over the previous year and the past five years and identify any projects that the fees have been spent on. Through the General Plan and various fee studies, the City has established the nexus between development, the capital improvements necessary to mitigate the effects of development, and approved fees to fund the mitigation measures.

ANNUAL REPORT REQUIREMENTS

California Government Code Section 66006 (b) requires each local agency that imposes development impact fees subject to the Mitigation Fee Act to prepare an annual report providing specific information about those fees for the previous fiscal year. Specifically, Section 66006 (b) requires that for each separate account, the local agency shall make available to the public the information shown below for the most recent fiscal year.

- Section 66006 (b) (1)
 - (A): A brief description of the type of fee in the account or Fund.
 - (B): The amount of the fees.
 - (C) The beginning (July 1) and ending (June 30) balance of a particular impact fee fund or account.
 - (D): The amount of the fees collected and interest earned by fund or account.
 - (E): An identification of each public improvement upon which fees were expended and the amount of expenditures on each improvement including the total percentage of the cost of the public improvement that was funded with fees.
 - (F)
 - (i): An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.
 - (ii): An identification of each public improvement identified in a previous report pursuant to clause (i) and whether construction began on the approximate date noted in the previous report
 - (iii): For a project identified pursuant to clause (ii) for which construction did not commence by the approximate date provided in the previous report, the reason for the delay and a revised approximate date that the local agency will commence construction
 - (G): A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended; and, in the case of an interfund loan, the terms of the loan, including the repayment schedule for the loan, and the rate of interest that the account or fund will receive on the loan.
 - (H): A summary of any refunds made, and their respective amount, due to sufficient funds being collected to complete financing of scheduled public improvements and

- the amount of reallocation of funds made due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.
- Section 66006 (b) (2)
 - Review the report at a public meeting not less than 15 days after the report is released to the public.

Additionally, pursuant to California Government Code Section 65906.6, the City is required to annually post on its website the following:

- (1) The amount of inclusionary housing in-lieu fees collected in the previous year.
- (2) Whether the inclusionary housing in-lieu fees are intended to be used for a project, if any.

Commencing on January 1, 2026 and every five years thereafter, the City is also required to post on its website both of the following:

- (1) The amount of inclusionary housing in-lieu fees collected in the past five years.
- (2) The projects that the inclusionary housing in-lieu fees were spent on.

The City is in compliance with these reporting requirements mentioned above and has included in-lieu fees into this year's report.

FIVE-YEAR REPORT REQUIREMENTS

California Government Code Section 66001 (d) (1) requires the local agency make all the following findings every fifth year with respect to that portion of the account remaining unexpended, whether encumbered to a specific project or remaining unencumbered in an impact fee fund.

- Section 66001 (d) (1)
 - (A): Identify the purpose to which the fee is to be put.
 - (B): Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.
 - (C): Identify all sources and amounts of funding anticipated to complete financing in incomplete improvements identified when the fee was established or increased.
 - (D): Designate the approximate dates when the anticipated funding will be secured to complete the identified improvements. This report and resolution passed by council at the next council meeting satisfy the reporting and findings required for developer fees.

With respect to fees collected from developers that are not expended within five years, state law recognizes that some project costs can be of a magnitude that it takes more than five years to accrue adequate funds, or that matching funds may not be available within the five-year period.

CAPITAL IMPROVEMENT PROGRAM

The State of California Government Code Section 66002 states that local agencies that have developed a fee program may adopt a Capital Improvement Program (CIP) indicating the approximate location, size and timing of projects, plus an estimate for the cost of all facilities or improvements to be financed by fees. A formal CIP is recommended, at a minimum, as well as a five-year plan. The City bi-annually produces a five-year CIP which helps to maintain and support the City's General Plan as well as identify situations where infrastructure is needed to accommodate the planned development.

The City's current, adopted 2-year Capital Budget for Fiscal Years (FY) 2024-2025 and 2025-2026, and the 5-year Capital Improvement Plan FY 2025-2029 can be found on the City's website at <https://cityofconcord.org/272/Capital-Improvement-Plan> and are incorporated by reference herein.

Annual Report

DESCRIPTION OF DEVELOPMENT IMPACT FEES

Art in Public Places Fees (Fund 285): The City rescinded this fee in 1996 and has since expended all the original fee revenues collected prior to that time. Revenues are occasionally added to the fund from other sources and interest from account balance have kept the account alive, so the reporting of these funds are included in the annual AB1600 reports. The fund has been used to support public art on traffic signal cabinets. Three years after the funds have been fully expended the account can be closed.

Inclusionary Housing Fee (Fund 251): This fee was established by Ordinance 04-3 in 2004 and updated most recently on March 14, 2024. The fee is intended to be used for housing projects and programs that serve very low-, low- and/or moderate-income households. All residential developments with five or more units must include the number of Inclusionary Units as required in the ordinance or, if eligible, pay the in-lieu fee as provided in the City's Fees and Charges Schedule.

Parking In-Lieu Fees (Fund 455): This is a voluntary fee that a developer may pay the City as an alternative means of complying with the parking requirements within the Downtown Parking District. This fee was established by Ordinance 954 in 1973 with amendments made in 1977 (Ordinance 77-1084) and 2017 (Ordinance 17-6). The fee is intended to fund parking improvements in the core area of the downtown. All development projects in the Downtown Pedestrian (DP) and Downtown Mixed Use (DMX) districts must meet requirements for on-site parking and loading as specified in Concord Municipal Code Sections 18.160.050 and 18.160.060. More specifically, for projects located within the Downtown Parking District, pursuant to Section 18.160.060 B., a developer can request the Planning Commission to allow payment of an in-lieu fee instead of providing some or all of the required on-site parking spaces.

Traffic Mitigation Fees (Funds 410, 420 & 461): Traffic Mitigation Fees were established by Ordinance 05-5 in July 2005. The fees are collected from developers to improve transportation elements of our infrastructure. Primarily these funds have been used to provide improvements to traffic signals, signal operations, and lane configurations supporting all modes of travel. Fund 410 is included in the report as it contains historical transactions; however, all funds have been

moved to Fund 420 and Fund 410 and will be closed. Fund 461 Fee was collected under a mitigation fee agreement with the City of Pittsburg for the Bailey Road Estates development on Bailey Road near the Concord city limit. The fee will be used to improve traffic at the intersections of Bailey Road/Myrtle Drive and Bailey Road/Concord Boulevard.

Master Storm Drain/Drainage Acreage Fees (Funds 430-440): The collection of developer fees to improve the storm drain system in certain parts of Concord was originally adopted by Ordinance 856 in August of 1971. These fees are used to fund capital projects consistent with the Storm Drain Master Plan.

CURRENT FEE SCHEDULE

Art in Public Places Fees (Fund 285): The City rescinded this fee in 1996 and has since expended all the original fee revenues collected prior to that time.

Inclusionary Housing Fee (Fund 251):

In-lieu Fee (Project sizes 10 units or greater)	
Ownership	\$20 per gross square foot of market-rate development
Rental	\$15 per gross square foot of market-rate development
Fractional In-Lieu Fee	
Ownership	\$254,838 x fractional unit
Rental	\$173,034 x fractional unit

Parking In-Lieu Fees (Fund 455):

Single non-residential	\$1,572/space
Multifamily residential projects	\$25,000/space

Traffic Mitigation Fees (Funds 410, 420 & 461):

Off-Site Street Improvement Program Fees	
Single family unit (per dwelling unit)	\$3,251/unit

Accessory Dwelling Unit (750sqft to 1200sqft and larger than 40% of primary dwelling)	\$1,626/unit
Accessory Dwelling Unit (750sqft to 1200sqft and 40% or smaller than primary dwelling)	\$1,073/unit
Multi family unit, including condominium and townhouse	\$2,624/unit
Commercial	\$8.81/gross sq.ft.
Office	\$7.07/gross sq.ft.
Industrial	\$2.98/gross sq.ft.
Mini-storage	\$1.51/gross sq.ft.

Master Storm Drain/Drainage Acreage Fees (Funds 430-440):

Drainage Area Fee – City	
Area 5	\$2,178/acre
Area 7	\$3,831/acre
Area 23/24	\$2,709/acre
Area 50	\$4,211/acre
Area 90	\$3,414/acre
Area 92	\$2,417/acre
Drainage Area Fee – County	
Area 128	\$0.17/sq.ft.
Area 22	\$0.05/sq.ft.
Area 33B	\$0.70/sq.ft.
Area 33C	\$0.44/sq.ft.
Area 48B	\$0.68/sq.ft.

Annual Financial Summary

In the preceding fiscal year, the City administered a range of developer fees subject to mandatory reporting requirements. These fees encompass:

1. Inclusionary Housing Fee
2. Parking In-lieu Fee
3. Traffic Mitigation Fees, including:
 - a) Off-Site Street Improvement Program (OSIP)
 - b) Bailey Road Traffic Improvements
4. Drainage Acreage Fees

The City no longer collects the Arts in Public Places fees following their rescission by the Council in 1996.

A detailed transaction report is included below, providing a comprehensive breakdown of each fee collected by the City. This report includes itemized expenditure and revenue data for each fee category. It is important to note that not all development projects are subject to each of these fees; requirements vary based on the nature and scope of individual projects.

INTERFUND TRANSFERS OR LOANS

In the fiscal year ending June 30, 2025, there were no interfund transfers or loans made from any of the impact fee, capacity fee, or in-lieu fee accounts.

SUMMARY OF REFUNDS

At this time, all fees collected have been earmarked for current or future capital projects necessary to maintain the current levels of service within existing service areas to serve new development.

Five-Year Report and Findings

INCLUSIONARY HOUSING FEE

- The Inclusionary Housing Fee was established by Ordinance 04-3 in 2004 and updated most recently on March 14, 2024. The fee is intended to be used for housing projects and programs that serve very low-, low and/or moderate-income households. This fee allows for new residential developments to contribute to the creation of affordable housing options within the community, either through direct construction of affordable units or by providing financial resources for affordable housing initiatives. All residential developments with five or more units must include the number of inclusionary units as required in the ordinance or if eligible, pay the in-lieu fee as provided in the City's Fees and Charges Schedule.
- The fees are charged to support affordable housing development, which directly addresses the housing needs created by new market-rate residential projects. The funds support the City's First-Time Homebuyer Program, a second mortgage loan program that assists qualified low- and moderate-income households to purchase a home. The program was initially funded by Redevelopment and subsequently Successor Agency funds and is now will be funded by Inclusionary Housing Fees. The fees have been used to cover certain administrative costs while the funds were built up to support loan assistance. Typically, this program has been able to fund three loans each year. Staff evaluates the revenue over the previous five years and makes adjustments to the loan program to ensure expenditure of the funds are compliant with AB1600 and the new AB 2663 requirements.

Project Name	Est. Start Date & % Funded by Fee	Future Funding				
		FY2026	FY2027	FY2028	FY2029	FY2030
First-Time Home Buyer Program	Ongoing 100%	\$90,000	\$90,000	\$90,000	\$90,000	\$90,000
Program Administration	Ongoing 100%	\$90,000	\$90,000	\$90,000	\$90,000	\$90,000

PARKING IN-LIEU FEE

- This Parking In-lieu Fee was established by Ordinance 954 in 1973 with amendments in 1977 (Ordinance 77-1084) and 2017 (Ordinance 17-6) . The fee is intended to fund parking improvements in the core area of the downtown. The purpose of this fee is to provide developers with a voluntary alternative to providing required on-site parking spaces. All development projects in the Downtown Pedestrian (DP) and Downtown Mixed Use (DMX) districts must meet requirements for on-site parking and loading as specified in Concord Municipal Code Sections 18.160.050 and 18.160.060. More specifically, for projects located in the Downtown Parking District, pursuant to Section 18.160.060 B., a developer can request the Planning Commission to allow payment of an in-lieu fee instead of providing some or all of the required on-site parking spaces.
- The fee is charged to support parking within the Downtown Business District with the purpose of funding off-street parking facilities, mass transit equipment, or transportation system management projects.

Project Name	Estimated Start Date	Total Project Cost	% Funded with Fee Revenue
Grant Funded Parking Implementation Project No. 2799 ⁽¹⁾	7/1/2027	\$1,100,000	5%

Notes

⁽¹⁾Potential other funding sources include grants.

TRAFFIC MITIGATION FEES

- Traffic Mitigation Fees were established by Ordinance 05-5 in July 2005. The fee is intended to fund street system improvements and transportation-related infrastructure to accommodate increased traffic generated by new development. These improvements are needed to mitigate the impacts of expected development in the City, and thereby prevent deterioration in public infrastructure.
- The fees are collected from developers to improve transportation elements of the City's infrastructure. Primarily these funds have been used to provide improvements to traffic

signals, signal operations and improvements to lane configurations supporting all modes of travel. Traffic Mitigation Fund monies are programmed as part of the Ten-Year Traffic Improvement Program (TIP), which is the long-range planning and funding tool for transportation projects within the combined Fiscal Year 2025 and Fiscal Year 2026 Capital Improvement Budget (CIP). The City intends to use a portion of the unallocated funds for current and future active projects. Additionally, the City must have adequate funds on hand to leverage and provide local matching funds as required when other funding sources become available for OSIP identified transportation projects. A portion of the unallocated fund balance will be used for that purpose. If any fees are not expended within the five-year requirement, projects are programmed where the development fees will be utilized, thereby complying with AB 1600 requirements.

Notes

⁽¹⁾FY2024-25 and FY2025-26 project budgets have been approved by Council as part of the Two-Year Capital Budget.

⁽²⁾Within the Capital Improvement Plan FY2025-2029, OSIP Funds have been earmarked for these projects.

⁽³⁾This ongoing program is also funded with Measure V, and Measure J.

⁽⁴⁾This ongoing program is also funded with Measure J.

⁽⁵⁾This ongoing program is also funded with Federal/State Grants, Measure J, Gas Tax, and Measure V.

⁽⁶⁾This ongoing program is also funded with Measure V.

DRAINAGE ACREAGE FEES

- The collection of developer fees to improve the storm drain system in certain parts of Concord was originally adopted by Ordinance 856 in August of 1971. Development within the City has placed a serious demand upon its existing storm drain facilities. In order to offset these impacts, Drainage Acreage Fees are collected. The fees are intended to provide an equitable manner of apportionment of the cost of future storm drainage facilities due to the development of real property within the City. The fees collected are in proportion to the per acre basis of development and the drainage boundary area which the development is located in.
- These fees are used to fund capital projects consistent with the Storm Drain Master Plan. Fees that are collected can be used to construct planned drainage facilities within the charged drainage area, maintenance or repair, addressing impervious surface runoff, and flood prevention.

Project Name ⁽¹⁾	Estimated Start Date	Total Project Cost	% Funded with Fee Revenue	Prior Funding
Stormwater Pipe Replacement-Area 1	7/1/2029	\$150,000	0%	\$0
Stormwater Pipe Replacement-Area 92	7/1/2029	\$150,000	0%	\$0
