1. DEVELOPMENT IMPACT FEE REPORT

The California Mitigation Fee Act (Government Code Sections 66000 et seq.) mandates procedures for administration of impact fee programs, including collection and accounting, reporting, and refunds. Regarding reporting requirements, the Mitigation Fee Act requires annual reporting for each impact fee fund, and a separate five-year reporting process. This report meets the requirements described in 1.1 Annual Report, below.

1.1 Annual Report

Section 66006 (b) (1) requires that once each year, within 180 days of the close of the fiscal year, the local agency must make available to the public the following information for each separate account established to receive impact fee revenues:

1. A brief description of the type of fee in the account or fund. (report section 2)
2. The amount of the fee. (report section 2)
3. The beginning and ending balance of the account or fund. (report section 3)
4. The amount of the fees collected, and interest earned. (report section 3)
5. Identification of each public improvement on which fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees. (report section 4)
6. Identification of approximate date by which the construction of a public improvement will commence, if the City determines sufficient funds have been collected to complete financing of an incomplete public improvement; an identification of each public improvement identified in a previous report and whether construction began on the approximate date noted in the previous report. For a project identified for which construction did not commence by the approximate date provided in the previous report, the reason for the delay and a revised approximate date that the local agency will commence construction. (report section 4)
7. A description of each inter-fund transfer or loan made from the account or fund, including interest rates, repayment dates, and a description of the improvement on which the transfer or loan will be expended. (report section 5)
8. The amount of any refunds or allocations made pursuant to Section 66001, paragraphs (e) and (f). (report section 6)

2. CURRENT IMPACT FEES

2.1 Types of Impact Fees and Impact Fee Funds

The fees documented in the body of this Annual Development Impact Fee Report (Report) include those listed below. The revenue and expenditures for each fee type are tracked by the City in separate funds.

Table 1. Impact Fee Funds

Fund No.	Fund/Fee Name	Purpose and Use of the Fee
4050	Parks Mitigation Fee Fund	This fund accounts for fees imposed on new residential, commercial, and industrial developments to mitigate the cost of developing new parks and rehabilitating existing parks and recreational facilities. Fees are received by collection from new commercial, office, industrial, and residential development.
4070	Library Mitigation Fee Fund	This fund accounts for fees imposed on new residential, commercial, and industrial developments to maintain adequate library services for new residents by mitigating the cost of developing new libraries and/or adding to existing collections. Fees are received from applicants as a condition of the issuance of permits for new development.
4080	Parks Quimby Fee Fund	This fund accounts for fees imposed on new residential subdivisions to mitigate the cost of developing new parks and rehabilitating existing parks and recreational facilities. A development impact fee is imposed as a condition of approval for a tentative tract map or tentative parcel map for residential developments only. If the Quimby fee assessed to the residential development project equals or exceeds \$1.0 million, the developer may request to dedicate land, either on-site or off-site, and develop a park in lieu of payment of said fee. Collection of fees is based on new residential subdivisions.
4110	Housing Development Impact Fee Fund	This fund accounts for fees imposed on new commercial developments to mitigate the cost of developing new affordable housing and rehabilitating existing housing and/or performing adaptive re-use projects for affordable housing. Collection of fees is from commercial developers.

2.2 Current Impact Fees

Development impact fees (DIFs) in the City of Glendale are one-time charges levied on new development to fund various parks, libraries, and housing development projects. Table 2 provides the list of impact fees charged by the City in Fiscal Year 2024, per Resolutions 19-47, 14-10, 17-95.

4. PUBLIC IMPROVEMENTS

Exhibit A – Exhibit D of the Annual Report identify each public improvement on which fees were expended and the amount of the expenditures on each improvement, including the percentage of the cost of the public improvement that was funded with fees.

The Mitigation Fee Act also requires annual identification of the approximate date by which the construction of a public improvement will commence, if the City determines sufficient funds have been collected to completed financing of an incomplete public improvement. The projects listed above represent active uses of impact fee funds to complete current capital improvement projects.

5. INTERFUND LOANS

The Mitigation Fee Act requires a description of each inter-fund transfer or loan made from the account or fund, including interest rates, repayment dates, and a description of the improvement on which the transfer or loan will be expended. There were no new or existing interfund transfers or loans made from or between impact fee fund accounts in Fiscal Year 2024.

6. REFUNDS

The refunding requirements for the Mitigation Fee Act are summarized as follows:

Refunds under the Mitigation Fee Act: If the City determines that sufficient funds have been collected to complete financing on incomplete improvements for which impact fee revenue is to be used, it must, within 180 days of that determination, identify an approximate date by which construction of the public improvement will be commenced (Government Code Section 66001 (e)). If the agency fails to comply with that requirement, it must refund impact fee revenue in the account according to procedures specified in Section 66001 (d).

As discussed in Section 4 of this report, determinations regarding sufficient funds collected to complete incomplete improvements are provided by the City's annual Capital Improvement Plan. Other than those listed above in Section 4 for which approximate construction dates have been provided, the City has not made a determination that sufficient funds have been collected to complete financing of any other incomplete public improvements. No refunds of impact fee monies were made or required.
