

Wastewater Impact Fee

In 2006, the City invested \$10.256 million to upgrade the City's Wastewater Treatment Plant to be able to process 2.0 million gallons per day of wastewater (accommodated both existing and future growth.) Of the overall amount, \$3.367 million was paid by grant and internal funding and an additional \$70,000 in principle was paid by the City, leaving \$6,819,00 in costs. Per the 2008 Report, of \$6,819,000, 20% (\$1,380,871) was the new development share of the cost.

The Wastewater Impact Fee Fund at the end of FY20-21 is \$0. The current fee charge for the Wastewater Impact Fee is shown in Table 1. There were \$46,648.10 in fund expenditures out of this fund in FY20-21. The funds collected are committed to annually pay back the long-term debt incurred by the City for the expansion of the Wastewater Treatment Plant. The following table summarizes the activity for the Wastewater Impact Fee Fund for fiscal year July 1, 2020 through June 30, 2021.

WASTEWATER IMPACT FEE	FY 2020-21
Beginning Balance	\$0
Developer Fees	\$46,648.10
Interest Income	\$0
Expenditures	\$46,648.10
Ending Balance	\$0

Expenditures in FY2020-21 included payment on the debt service for the long-term debt. The original impact fee report stated that the existing population at the time the report was completed was 6,473 which was the average figure from the General Plan, the State Department of Finance and ESRI Tapestry. The original report was estimating a 1.5% population growth each year. As of the end of 2021, per the State Department of Finance, the population of the City of Willows was 6,427. As the population increases it is anticipated that the additional impact fees will be collected to pay off the remaining debt of the Wastewater Treatment Plant. The exact timing of collecting the remaining fees is dependent on when growth occurs within the City.

No interfund transfers or loans were made from this account.

No refunds were made from this fund pursuant to subdivision (e) of Section 66001 of the Government Code, as funds are used to pay off existing debt on an annual basis.
