14-F

TO: Honorable Mayor and Members of the City Council

FROM: Jeffrey L. Stewart, City Manager

SUBJECT: Consideration and possible action to approve the Development Impact Fee Annual Report for Fiscal Year 2016-2017 pursuant to Government Code Section 66006.

DATE: October 23, 2017

EXECUTIVE SUMMARY

Pursuant to BMC Chapter 3.24 (Ordinance No. 1117) and Chapter 3.36 (Ordinance No. 1118), the City has been collecting the public facilities and park facilities fees, respectively, since October 2006, and is required to report certain information to the City Council and public annually pursuant to the Government Code Section 66006. Section 8.a of the Resolution No. 11-22 directs the City Manager to prepare the required report. As supplemental information, financial data and other information on the Public Arts Fee (BMC Chapter 3.32; Ordinance No. 1098) and Sewer Reconstruction Fee (BMC Chapter 13.12; Ordinance No. 163; Resolution No. 08-36) have also been incorporated into the annual report.

The Public Arts Fee has a unique provision in that any developer can choose to install public art on the property that is being developed instead of paying a fee to the City. Such installation of public art by a developer requires City Council approval. In addition, during this reporting fiscal year, no Public Arts Fees were waived and any waiver will require City Council approval.

RECOMMENDATION TO CITY COUNCIL

- 1) Approve the Development Impact Fee Annual Report for Fiscal Year 2016-2017 pursuant to Government Code Section 66006; or
- 2) Alternatively, discuss and take other action related to this item.

FISCAL IMPACT

None. The Fund balances as of June 30, 2017, were as follows:

Park Facilities Fund	\$ 300,054
Public Facilities Fund	54,360
Public Arts Fund	186,206
Sewer Reconstruction Fund	211,944

PUBLIC NOTICE

On October 3, 2017, a Public Notice, along with the Development Impact Fee Annual Report for fiscal year 2016-2017, was posted at City Hall, the Brakensiek Library, Bellflower Substation, Thompson Park, and Simms Park.

DISCUSSION

The City collects public facilities and park facilities fees, which are fees associated with development projects. Government Code Section 66006 requires the City to prepare an annual report that describes certain information about the fees, such as the amount of fees collected, public improvements for which the fees were expended, fund balance, and other information. In addition, Government Code Section 66001 requires the City to provide additional information every five years making certain findings about the fees. The next five year report is required for fiscal year 2020-2021.

City staff has prepared the attached annual report and made it available to the public at least 15 days in advance of this meeting and recommends that the City Council approve the attached report.

PARK FACILITIES FEE ANNUAL REPORT (FISCAL YEAR 2016-17)

This annual report section has been prepared pursuant to the requirements of Government Code Section 66006.

(A) Brief description of the type of fee in the account or fund.

Pursuant to BMC Chapter 3.36 (Ordinance No. 1118), the Park Facilities Fee is collected for the development of new and rehabilitation of existing neighborhood or community parks and recreational facilities within the City.

The objective of the Park Facilities Fee is to ensure that new development pays the capital costs associated with population growth which increases the demand for municipal services and park facilities.

(B) Amount of the fee.

A fee may be paid in lieu of or in addition to land dedication. The amount of such fee is determined by multiplying the number of acres of land which would otherwise be required to be dedicated by the fair market value per acre of the land within the proposed residential development.

	Prior to <u>6/23/17</u>	<u>6/23/17</u> & subsequent
Single Family Per Unit	\$18,826	\$20,327
Multi-Family Per Unit	\$14,230	\$17,023

The amount of land to be dedicated is equal to .0025 acres per person multiplied by the number of persons added to the City's population by the new residential development. The number of persons added to the City's population by the new residential development is determined by multiplying the number of new dwelling units being developed by the density factor determined.

(C) Beginning and ending balance of the account or fund.

(D) Amount of the fees collected and the interest earned.
