OVERVIEW
REPORT ON LOCAL AREA TRANSPORTATION FACILITIES PLANS FINANCING FUNDS
FISCAL YEAR 2013/2014

San Bernardino County has adopted transportation facilities plans for the financing of needed road improvements as growth continues in the County. Government Code requires certain disclosures of the financial information related to those plans. The fees for each of the plan areas are deposited into separate funds as required by the Government Code. Government Code Section 66006(b) requires each entity collecting facilities fees to disclose an annual accounting of the fund related to those fees. This report has been furnished to comply with this requirement.

The code requires that the information contained in this report be available as soon as it has been collected and must be made available within one hundred eighty (180) days of the close of the fiscal year. This requires that the information be made available in December of each fiscal year. Additionally, once the information is available it must be reviewed at the next regularly scheduled public meeting not less than fifteen (15) days after the report is made available to the Public.

The following spreadsheets depict:

1. The fund balances of the capital facilities funds at the beginning of the fiscal year;
2. The fund balances of the funds at the end of the fiscal year;
3. The fee income, interest earned, and other income earned during the fiscal year;
4. The amount of expenditures made from these funds during the fiscal year.

Please note that Section 66001 subdivisions (e) and (f) require that the agency, unless it demonstrates that the administrative costs of refunding would exceed the amount to be refunded, is required to refund the unexpended or uncommitted portion of any fee collected (plus interest) for which need is not demonstrated five or more years after deposit of the fee.

At this time, the plans are proceeding as planned and no refunds have been made per this Section. Sufficient funds have not been collected by any of the plans to complete all improvements in the plans. It is not anticipated that refunds will occur in the near future. This information will be included in the annual report if refunds occur.

There also has not been any interfund transfer or loan from any of the plan funds per this Section.

Section 66006(b) (1 and 2) provide in part as follows:

"For each separate account or fund established pursuant to subdivision (a), the local agency shall, within 180 days after the last day of each fiscal year, make available to the public.... the beginning and ending balance of the account or fund, the amount of the fees collected and the interest earned, an identification of each public improvement on which fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees.... and the amount of refunds made pursuant to subdivision (e) of Section 66001 and any allocations pursuant to subdivision (f) of Section 66001....The local agency shall review the information.... at the next regularly scheduled public meeting not less than 15 days after this information is made available to the public, as required by this subdivision."

The data supporting the information shown on the attached sheets is updated on a monthly basis and is available for public review at the San Bernardino County Department of Public Works, Transportation Planning Division, 825 East Third Street, Room 143, San Bernardino, CA 92415-0835.

HELENDALÉ/ORO GRANDE
LOCAL AREA TRANSPORTATION FEE PROGRAM

FIVE-YEAR FINDINGS

In accordance with Government Code Section 66001, the County of San Bernardino makes the following findings with respect to those portions of the accounts or funds remaining unexpended, whether committed or uncommitted.

All unexpended funds held for five years or more are committed to projects that are a suitable purpose for the use of the developer fee.

A) Identify the purpose to which the fee is to be put

The purpose of the fees collected on development is to fund the transportation facilities projects listed within the Board adopted Local Area Transportation Facilities Plan Reports (Local Plans) on file with the Clerk of the Board. The project lists were developed as the minimal improvements deemed necessary to meet the basic transportation needs based upon projected development within the Plan boundaries. The Local Plans were adopted as follows:

Fee Plan	Adoption Date
High Desert	September 21, 1993 <i>(original adoption Dec 5, 1988)</i>
Helendale/Oro Grande	March 1, 1993
Lucerne Valley	October 22, 1996
Oak Hills A	September 18, 1989
Oak Hills B	September 18, 1989
Snow Drop	August 12, 1991
Southeast Apple Valley	March 1, 1993
Summit Valley	September 17, 1996
Joshua Tree	Interim Plan
Big Bear	Interim Plan

B) Demonstrate a reasonable relationship between the fee and the purpose for which it is charged.

Each Board adopted Local Plan contains a specific analysis on the relationship between the Local Plan's fee and development. In general, all Plans are based upon the cost of the improvements necessary to accommodate new growth divided by the number of trips estimated to be generated by the new development. This produces a fee per trip factor that is then multiplied by the number of new trips attributable to different types of development based upon trip factors as determined by the Institute of Transportation Engineers. Additional information specific to each Local Plan can be found in the adopted Local Plans on file with the Clerk of the Board of Supervisors.

C) Identify all sources and amounts of funding anticipated to complete financing.

Sources and amounts of funding to complete financing for Plan projects can be found in the adopted Local Plans on file with the Clerk of the Board of Supervisors. The following table is a summary of the anticipated funding sources to complete all transportation facilities projects identified in the Local Plan project lists. However, project costs have increased since adoption of the Local Plans, and State funding has not been consistently available for a percentage of project costs. Additional funding sources and/or increases to the development fees will need to be identified to complete all the projects proposed in the Local Plans.

Sources	Amount of Funding (per Plans)	Notes/Current Amounts Available
Development Fees	\$ 216,063,705	100% of Fees Collected, At Full Build-out
State Funds	\$ 46,023,100	TBD
Measure I	\$ 14,282,295	TBD (over \$12 million in project contributions to date)
City/Other Agency Contributions	\$ 19,393,000	TBD
Additional Federal/Grant Funds	TBD	

D) Designate the approximate dates on which the funding referred to in C) above is expected to be deposited into the appropriate account or fund.

Sources	Approximate Date When Funds Will Be Collected/Received/Deposited
Development Fees	Fund balances currently available as designated in the Annual Report. Deposit of the balance of fees, date unknown (based on 100% fee collection at full build-out)
State Funds	Unknown - based on state budget and availability
Measure I	Unknown - funds programmed based on overall system needs
City/Other Agency Contributions	Unknown - based on city/other agencies' budgets and availability
Additional Federal/Grant Funds	Unknown - based upon availability/successful grant awards & availability of grant matching funds
