No expenditures were made from this fund during FY20-21. The original impact fee report stated that the existing population at the time the report was completed was 6,473 which was the average figure from the General Plan, the State Department of Finance and ESRI Tapestry. The original report was estimating a 1.5% population growth each year. As of the end of 2021, per the State Department of Finance, the population of the City of Willows was 6,427. As the population increases, improvements associated with expansion of the Parks and Recreation facilities will be needed. It is anticipated that when the Basin Street residential project is construction, additional new park amenities (both soccer and baseball/softball fields will be needed, along with the amenities associated with the park(s). The developer has been conditioned to dedicated parklands and improvement the parks as that development is built. It is anticipated that the improvements will be built with that development in-lieu of paying their portion of this impact fee, as well as the developer will contribute additional monies to complete the needed improvements. The date when this will occur is dependent on when growth occurs within the City.

No interfund transfers or loans were made from this account.

No refunds were made from this fund pursuant to subdivision (e) of Section 66001 of the Government Code, as insufficient funds have been collected for the improvements identified in the 2008 Report.
