Legal Reporting Requirements for Development Impact Fees

Annual Requirements:

In California, State legislation sets certain legal and procedural parameters for the charging of development impact fees ("DIFs"). This legislation was passed as AB1600 by the California Legislature and is now codified as California Government Code Sections (GC §) 66000 through 66008 ("Mitigation Fee Act"). This State law went into effect on January 1, 1989.

GC § 66006(b) states the following requirements pertaining to DIFs:

For each separate account or fund established, the local agency shall, within 180 days after the last day of each fiscal year, make available to the public the following information for the fiscal year:

(A) A brief description of the type of fee in the account or fund. *(Section 1)*

(B) The amount of the fee. *(Section 2)*

(C) The beginning and ending balance of the account or fund. *(Section 3)*

(D) The amount of the fees collected and interest earned. *(Section 3)*

(E) An identification of each public improvement on which fees were expended and the amount of expenditures on each improvement including the total percentage of the cost of the public improvement that was funded with fees. *(Section 4)*

(F) An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete. *(Section 4)*

(G) A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid, and the rate of interest that the account or fund will receive on the loan. *(Section 3)*

(H) The amount of refunds made (as pursuant to GC § 66001(e)) due to sufficient funds being collected to complete financing on incomplete public improvements, and the amount of reallocation of funds made (as pursuant to GC § 66001(f)) due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded. *(Section 3)*

GC § 65865(e) also requires that in any development agreement entered on or after January 1, 2004, the City shall comply with GC § 66006 with respect to any fee it receives or cost it recovers.

5-Year Requirements:

In addition to the annual reporting as mandated per California GC § 66006(b), GC § 66001(d) requires that every fifth year the local agency shall make all of the following findings with respect to that portion of the account or fund remaining unexpended, whether committed or uncommitted.

- (A) Identify the purpose to which the fee is to be put. *(Section 1)*
- (B) Demonstrate a reasonable relationship between the fee and purpose for which it is charged. *(Section 3)*
- (C) Identify all sources and amounts of funding anticipated to complete financing for incomplete improvements. *(Section 3)*
- (D) Designate the approximate dates on which the funding is expected to be deposited into the appropriate account or fund. *(Section 3)*

Additional Notes:

The State of California Government Code § 66002 states that local agencies that have developed a fee program may adopt a Capital Improvement Program (CIP) indicating the approximate location, size and timing of projects, plus an estimate for the cost of all facilities or improvements to be financed by fees.

A formal CIP is recommended, at a minimum, as a five-year plan. The City biennially produces a five-year CIP which helps to maintain and support the City's General Plan as well as identify situations where infrastructure is needed to accommodate the planned development. The City's adopted 2024/25– 2028/29 Capital Improvement Program can be found on the City's website at:

<https://www.cityofmenifee.us/481/Capital-Improvement-Program-CIP>

The 2024/25– 2028/29 CIP identifies all funding sources and amounts for individual projects through FY 2028/29. The CIP is updated annually to reflect the current infrastructure needs of the City. As a CIP project is identified, the project is evaluated to determine the portion of the project that will service existing residents and businesses versus new development.

Once the determination of use is made, the percentage of use attributable to new development is then funded by the appropriate development impact fee based on the type of project. The percentage of use associated with existing residents or businesses are funded from other appropriate sources as identified on each individual project sheet in the CIP. All future planned infrastructure needs are outlined in the DIF Program. Estimated construction start dates for projects are adjusted, as needed, to reflect the needs of the community.

Establishing a Reasonable Relationship Between the Fee and the Purpose for Which It Is Charged:

Upon its incorporation in 2008, the City initially adopted the County's Development Impact Fee (DIF) structure to ensure an ongoing financial mechanism to meet future needs. In 2017, the City completed a comprehensive review of the DIF Program. In

December 2017, the City adopted an updated DIF structure, which was implemented beginning July 1, 2018.

Most recently, with analysis efforts beginning in FY2021/22, the City completed a Development Fee Program 2022 Update. New and/or updated fees were authorized with an effective date of July 1, 2023 which was adopted on November 16, 2022, with the first annual fee adjustment occurring July 1, 2024. Adjustments to the fees shall be made annually in accord with the Engineering News Record Construction Cost Index. Specific DIF information included in this year's report reflects historical DIF fees inherited under the original County structure, and the City's first Fee Study effective July 1, 2018.

The DIF Program sets forth the relationship between contemplated future development, facilities needed to serve future development, and the estimated costs of those improvements based on the current General Plan for build-out. Comprehensive updates to the program are completed on an as-needed basis to ensure the program continues to reflect the appropriate fees in relation to updated costs.

Many of the City's CIP projects are financed in part by the impact fees outlined in the DIF Program. The City's capital improvements provide infrastructure for the residents and businesses in Menifee in order to keep pace with ongoing development in, and adjacent to, the community.

Estimated project costs, and the summary of fee apportionment to each development impact fee type, are detailed within the City's DIF Program within this document. Information on current CIP projects that included DIF Funding during the reporting period can be found within Section 4 of this report, including: Current Projects, Project Phase, Estimated Construction Start Date, Estimated Completion Date, Estimated Project Cost and Development Impact Fee information including Budget to Date, Funding to Date and Estimated % of Project Funded with fees.

The Fiscal Year 2024/25 Annual Reporting consists of the following Sections:

- Section 1: **Description of Development Impact Fees** (*What does each Fee pay?*)
- Section 2: **Summary of Impact Fee Amounts** (*What is each fee amount?*)
- Section 3: **Summary of Fee Activity FY2024/25 & 5-Year Test** (*What are the balance, revenues, and expenditure totals of each fee?*)
- Section 4: **Summary of Fee Expenditures** (*What specific projects were funded?*)

Section 1: Description of Development Impact Fees

As noted in the previous section, specific DIF information included in this year's report reflects historical DIF fees inherited under the original County structure, and the City's first Fee Study effective July 1, 2018, the City's most current DIF Fee Schedule is effective July 1, 2023, and is included within this year's AB1600 report.

The City's 2018 DIF Study and current 2022 adopted DIF Study can also be accessed on the City's website at:

***Accessory Dwelling Units – ADU's will be proportional to the single-family unit fees. ADU's that are 749 square feet or smaller (livable space, garage not included) are not required to pay Development Impact Fees. Please use the formula below to calculate ADU fees:**

$$\frac{\text{ADU S.F.}}{\text{Main Unit S.F.}} = \text{_____ \%} \times \text{Single Family DIF fee}$$

The Storm Drain Fees associated with the Development Impact Fees are split up into eight (8) different sub watershed storm drain sections; A_A, A_B, A_C, B_A, B_B, F_A, F_C, and F_E. The map associated with these eight (8) storm drain zones is attached to this memo and identified as Figure 1: Menifee Storm Drain Fee Zones. Additionally, projects/properties may be located in more than one storm drainage area. For a more detailed and interactive map, please use the following link:

5-Year Test & Findings per Government Code 66001(d)

(DIF Revenues Collected in Excess of 5 Years):

Pursuant to the 5-year reporting and finding requirements of Government Code, the following tables summarize DIF, as well as Quimby and RBBD revenues collected for the past 5 years, and in excess of five years, if applicable. The following findings are made and incorporated through this report for revenue collected in excess of five years:

- As indicated in the table in the next page, various funds include budget appropriations, including encumbrances, in the current fiscal year (FY2024/25) for the use of Fund Balance. Using the First In, First Out (FIFO) methodology, the City will be using the fees collected prior to FY2019/20 for the available fund balance first. Principally appropriations correspond to active projects within the City's CIP program. Additionally, specific the following DIF, the following budget appropriations are included as part of the Adjusted FY2025/26 budget:
 - o DIF 2525 (Citywide Law Enforcement): The city will be using approximately \$403k during FY2024/25 for the purchase of additional Menifee PD vehicles and equipment.
 - o DIF 2513 (Library Facilities): The city will be using \$50,000 for annual library fees.

Current funds held in within DIF 2530 (Master Planning/Nexus Analysis) will be used/programmed for future DIF Fee Nexus Analysis updates.

- DIF 16 and DIF 17 are DIF established by the County of Riverside prior to City incorporation with specific geographic areas. Fees for these are now only applicable to previously approved development agreements. The City will continue to prioritize incorporating use of these funds toward eligible capital projects as part of its CIP Program annual planning.
- With respect to DIF 17 Library (Fund 2513), while the City does not directly have library facilities and/or manage library services, it will continue to use DIF fees to pay eligible annual costs to the County of Riverside.
- The purpose, and reasonable relationship between the respective fee and applied rates is identified within the nexus studies completed for each. the nexus analysis/reports were completed and are maintained by the County of Riverside for Funds 2410 through 2520 and the City of Menifee's 2018 nexus study for the reporting period and 2022 DIF update effective July 1, 2023, can be accessed on the City's website at www.cityofmenifee.us for Funds 2517 to 2620.
- Additional detail of FY2025/26 CIP Program appropriations amounts listed in the next pages, including specific project detail, all funding sources, and estimated

construction and completion dates are incorporated as part of the FY2025/26-2028/29 CIP Program located on the City's website at www.cityofmenifee.us.

(1) DIF 16 and DIF 17 are DIF established by the County of Riverside prior to City incorporation with specific geographic areas. Fees for these are now only available to previously approved development agreements. The City will continue to prioritize incorporating use of these funds toward eligible capital projects as part of its CIP Program annual planning.

- The purpose, and reasonable relationship between the respective fee and applied rates is identified within the nexus studies completed for each. For Funds 2410 through 2520, the nexus analysis/reports were completed and are maintained by the County of Riverside. For Funds 2522 to 2620, the City of Menifee 2018 nexus study for the reporting period and 2022 DIF update effective July 1, 2023, can be accessed on the City's website at www.cityofmenifee.us.

- Additional detail of FY24/25 CIP Program appropriations amounts listed above, including specific project detail, all funding sources, and estimated construction and completion dates are incorporated as part of the FY24/25 -28/29 CIP Program located on the City's website at www.cityofmenifee.us.

Section 4: Summary of Fee Expenditures (Project Detail)

This section provides an expenditure summary by project for projects using DIF funds for Fiscal Year 2024/25. The amounts reflected in the summary are specific to the reported year and respective DIF. Summary overall project costs, funding, percentage DIF funded and construction phase are also provided. Additional details can be located within the adopted CIP Program, located on the City website at:
