The Public Safety – Communication Facilities Impact Fees adopted on October 1, 2019, outlines the facilities necessary to mitigate new development’s impact on the City’s Communication Facilities. **Table 43** identifies the Radio Communications Tower project that will utilize funds collected by this fee. The project still requires additional funding to commence. Future project expenditures are based on information available from the City's current CIP and may be updated as the CIP moves through the project life cycle. The percent of project funded may also fluctuate as the final project cost is identified to reflect available grants, tax revenue, and impact fee funds.
