* Totals are rounded and may not directly add to the displayed figures. Amounts provided by the City on December 3, 2024.

¹ Beginning FY 23-24 fund balance may differ from ending fund balances reported in FY22-23 report. This is due to corrections to the fair market offset in the final audited numbers, which were not available at the time the report was prepared.

² Investment Earnings total includes cash-fair market value offsets.

Requirement 5: Identification of each public improvement for which fees were expended and the amount of expenditures, including the total percentage of the cost of the public improvement that was funded with fees.

No expenditures were made from this account for FY23-24.

Requirement 6: i) An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete. ii) Identification of each public improvement identified in the previous report and whether construction began on the approximate date noted. iii) For previously identified projects that did not start construction on the approximate date in the previous report, the reason for the delay and a revised approximate date that the local agency will commence construction, if applicable.

The Public Facilities Master Plan and Fee Study identified the facilities necessary to serve new development. The City is currently planning for the construction of a multi-generational facility as identified in **Table 71** which will utilize funds collected to date from this fee program. Future project expenditures are based on information available from the City's current CIP and may be updated as the CIP moves through the project life cycle. The percent of project funded may also fluctuate as the final project cost is identified to reflect available grants, tax revenue, and impact fee funds.
