1. Introduction and Background

In California, State legislation sets certain legal and procedural parameters for the charging of development impact fees. This legislation was passed as AB1600 by the California Legislature and is now codified as California Government Code Sections 66000 through 66008 (“Mitigation Fee Act”). This State law went into effect on January 1, 1989.

Requirements for Development Impact Fee Reporting

The Mitigation Fee Act imposes certain accounting and reporting requirements with respect to the fees collected. The fees must be deposited in a special account to avoid comingling the fees with the City’s other revenues or funds. Interest on each development fee fund or account must be credited to that fund or account and used only for those purposes for which the fees were collected.

The Mitigation Fee Act also requires any local agency that imposes development impact fees to prepare an annual report and a five-year report that provide specific information about those fees. This report serves both of those functions and has been prepared for the City of Oakdale for the fiscal year (FY) ended June 30, 2024 in accordance with the provisions of the California Government Code Section 66006 (b) and 66001 (d).

Annual Report

California Government Code Section 66006 (b) requires each local agency that imposes Development Impact Fees under the Mitigation Fee Act to prepare an annual report providing specific information about those fees for the previous fiscal year. Specifically, Section 66006 (b) requires that for each separate fund, the local agency shall make available to the public the information shown below for the most recent fiscal year.

- 66006 (b) (1) (A): A brief description of the type of fee in the account or fund.
- 66006 (b) (1) (B): The amount of the fees.
- 66006 (b) (1) (C): The beginning (July 1) and ending (June 30) balance of a particular impact fee fund.
- 66006 (b) (1) (D): The amount of the fees collected and interest earned by fund.

- 66006 (b) (1) (E): An identification of each public improvement upon which fees were expended and the amount of expenditures on each improvement including the total percentage of the cost of the public improvement that was funded with fees.
- 66006 (b) (1) (F): An identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement.
- 66006 (b) (1) (G): A description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended; and, in the case of an interfund loan, the terms of the loan, including the repayment schedule for the loan, and the rate of interest that the account or fund will receive on the loan.
- 66006 (b) (1) (H): A summary of any refunds made, and their respective amount, due to sufficient funds being collected to complete financing of scheduled public improvements and the amount of reallocation of funds made due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

State law requires the City to prepare and make available to the public the above information within 180 days after the last day of each fiscal year. The City Council must review the annual report at a regularly scheduled public meeting not less than fifteen days after the information is made available to the public.

2. Annual Report

Description of Impact Fee Programs

66006(b)(1)(A)

The City of Oakdale Capital Facilities Fee (CFF) Program Area includes land zoned for residential and nonresidential uses, totaling approximately 900 acres of land uses. In the 2016 nexus study land use estimates The CFF Program is a citywide fee program that funds new and expanded infrastructure and facilities needed to serve new development in the City. The CFF Program provides funding for transportation, general government, fire, and police facilities. In 2016, the CFF Nexus Study was prepared to update the CFF fees based on new land use and growth projections as well as updated facility needs and costs.

The components of the CFF Program are summarized below:

Streets

The purpose of the Streets/Public Works Fee is to fund streets-related capital costs attributable to the impact from new development. The Streets/Public Works Fee will be used to fund the construction of street improvements identified by the City as necessary to maintain an adequate level of service as the City grows. The streets fee revenue from the Fee Program is used to construct street and intersection improvements identified in the City's Street Master Plan.

Wastewater

The purpose of the Wastewater Fee is to fund wastewater-related capital costs attributable to the impact from new development in the Fee Program Area. The wastewater fee will be used to fund the construction or purchase of wastewater facilities identified by the City as necessary to serve new development in the Fee Program Area. The wastewater fee revenue from the Fee Program is used construct the wastewater facilities identified in the City's Wastewater Master Plan.

Water

The purpose of the Water Fee is to fund water-related capital costs attributable to the impact from new development in the Fee Program Area. The Water Fee will be used to fund the construction or purchase of water facilities and a portion of the cost of a water conservation program identified by the City as necessary to serve new development. The water fee revenue from the Fee Program is used to construct the water facilities identified in the City's Water Master Plan like the construction or purchase of water facilities and a portion of the cost of a water conservation program.

Storm Drainage

The purpose of the Storm Drainage Fee is to fund storm drainage-related capital costs attributable to the impact from new development. The Storm Drainage Fee will be used to fund the construction or purchase of storm drainage facilities identified by the City as necessary to serve the Fee Program Area. The storm drainage fee revenue from the Fee Program is used to construct the storm drainage facilities identified in the City's Storm drainage Master Plan

Police

The purpose of the Police Fee is to fund police-related capital costs attributable to the impact from new development. The Police Fee will be used to fund the construction or purchase of additional police facilities, a fair-share portion of an animal shelter and vehicles needed to serve new development. The police fee revenue from the Fee Program is used to construct or purchase police facilities, an animal shelter, vehicles, and equipment will ensure that these facilities will be available to provide an adequate level of service as the City grows.

Fire

The purpose of the Fire Fee is to fund fire-related capital facilities attributable to the impact from new development. The Fire Fee will be used to fund the construction or purchase of fire facilities identified by the City as necessary to serve new development in the Fee Program Area. The fire fee revenue from the Fee Program is used to construct or purchase fire facilities, apparatus, and vehicles.

Parks and Recreation Facilities

The purpose of the Parks and Recreation Fee is to fund parks and recreation-related capital costs attributable to the impact from new development. The Parks and Recreation Fee will be used to fund the construction or purchase of park and recreation facilities and land identified by the City to serve new development. The parks and recreation facilities fee revenue from the Fee Program is used to construct or purchase park land and improvements.

General Government Facilities

The purpose of the General Government Fee is to fund general government capital costs attributable to the impact from new development. The General Government Fee will be used to fund the construction or purchase of general government facilities identified by the City as necessary to serve new development. The general government facilities fee revenue from the Fee Program is used to construct or purchase general government facilities and vehicles.

Current Impact Fee Schedules

66006(b)(1)(B)

shows the current fee schedule for residential land uses for the CFF Fee Program.

Table 2-1 shows the current fee schedule for residential land uses for the CFF Fee Program. These fees are effective from July 1, 2024, through June 30, 2025.

Approximate Date of Construction

66006(b)(1)(F)

Section 66006 (b) (1) (F) of the Mitigation Fee Act requires an identification of an approximate date by which the construction of the public improvement will commence if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement. The City of Oakdale has determined that it has not collected sufficient funds to complete financing on an incomplete public improvement.

Interfund Transfers or Loans

66006(b)(1)(G) and 66013(d)(5)

Section 66006 (b) (1) (G) of the Mitigation Fee Act requires a description of each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned fees will be expended; and, in the case of an interfund loan, the terms of the loan, including the repayment schedule for the loan, and the rate of interest that the account or fund will receive on the loan.

In the fiscal year ended June 30, 2023, there were no interfund transfers or loans made from the CFF Funds.

Summary of Refunds

66006(b)(1)(H)

Section 66006 (b) (1) (H) of the Mitigation Fee Act requires a summary of any refunds made, and their respective amount, due to sufficient funds being collected to complete financing of scheduled public improvements and the amount of reallocation of funds made due to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

At this time, all fees collected have been earmarked for current or future capital projects necessary to maintain the current levels of service to serve new development. There were no refunds made from any of the impact fee or capacity fee funds.
